

SUDAN

Overview

Operational highlights

- Reported human trafficking and kidnapping incidents dropped significantly following UNHCR, IOM and Government measures, with 100 cases reported in 2013 compared to 338 in 2012.
- In eastern Sudan, 53 per cent of refugees were self-employed by year-end, thanks to various small business ventures. The number of refugees earning a minimum wage increased from 35 to 40 per cent.
- In total, 1,374 refugees were submitted for resettlement and 538 individuals departed, compared to 374 in 2012.

- A joint registration/verification exercise implemented by UNHCR and the authorities in Khartoum aimed to facilitate access to asylum and related documentation.
- In Darfur, the organization provided medical services to more than 17,300 refugees and asylumseekers and enabled refugees in Um-Shalaya camp to access essential services. The Office also supported over 15,000 IDPs, with activities to improve the well-being of people of concern, including the quality of education, access to water and medical care for the elderly.

 Sudan has a tradition of hospitality towards refugees, and made land available in the east and Darfur region for camps.
 Despite an encampment policy, the authorities acknowledged refugees' presence in urban areas, and took positive measures to counter human trafficking, people smuggling and kidnapping.

People of concern

There were an estimated 160,000 refugees and people in a refugee-like situation in Sudan. Most resided in the east, originating from Eritrea and Ethiopia, but others were in Darfur and Khartoum. Refugee figures rose by 7,700 in 2013 due to new arrivals, predominantly in the east, with a peak rate of 600 individuals per month.

In Sudan, 350,000 South Sudanese were considered at risk of statelessness. Of particular concern were 40,000 people living in open areas of Khartoum and other South Sudanese communities living in similar

circumstances throughout Sudan, including in the east, the three Protocol Areas of Abyei, Southern Kordofan and Blue Nile, and parts of Darfur.

Another 390,000 people were internally displaced in Sudan during 2013, at least 310,000 of them as a result of conflict in Darfur. Ongoing violence in Blue Nile and South Kordofan States also displaced an estimated 250,000 and 230,000 internally displaced people (IDPs) respectively by year-end.

% of IDPs with intention to return who have returned voluntarily	Refugees and Asylum Seekers in Darfur	40%	12%
COMMUNITY EMPOWERMENT AND SELF-RELIANCE			

Result/impact: Through the Transitional Solutions Initiative, the income of refugees in east Sudan increased by 32 per cent. The adoption of comprehensive livelihood programmes helped raise crop yields and livestock production for farmers and pastoralists. It also increased access to market-oriented vocational training and entrepreneurship, as well as to sustainable microfinance services. Some 4,000 households benefitted from microfinance services that boost agriculture and livestock production and support small businesses. More than 900 households received vocational training. A women's development centre was constructed in Fau 5, enabling 240 women to engage in community skills training programmes.

Gap: Income increases were offset by high inflation. More robust capacity building was required to effectively deliver microfinance services in both refugee and host communities. Following an agreement signed with the authorities foreseeing the provision of 30,000 work permits to refugees in Kassala State, in 2013, 100 were granted.

% of PoC (18-59 years) earning at least minimum wages for more than six months per year	Refugees and asylum-seekers in the east	30%	40%

Assessment of results

Despite challenges in accessing affected populations, particularly IDPs, there were positive developments. A registration exercise for refugees and asylum-seekers in Khartoum was a step closer to developing an urban refugee policy.

The Office also developed a three-year child-protection policy and strengthened its response to trafficking by involving the Government in a strategy developed by UNHCR and IOM.

Access to displaced people in Blue Nile and South Kordofan improved but remained limited, particularly in rural and conflict-affected areas. UNHCR maintained a minimal protection monitoring and response capacity through local partners and national staff.

To prevent statelessness, negotiations between Sudan and South Sudan on nationality issues and the status of South Sudanese in Sudan were supported by providing technical advice to the African Union High Level Implementation Panel on Sudan. With the help of UNHCR's advocacy, the birth registration of South Sudanese children was prioritized by the national committee on birth registration.

A survey conducted in six IDP camps in west Darfur led to the development of a durable solutions strategy for refugees in Darfur. For the first time, documentation was issued to verified refugees there. UNHCR led the Darfur Protection Cluster, to ensure that protection concerns were addressed by inter-agency coordination mechanisms.

The Office led the emergency shelter/non-food items (ES/NFI) sector and played an essential role in the coordination, planning, reporting and tracking of distributions of shelter and NFI assistance. More than 271,600 households received assistance in 2013, 75 per cent comprising women and young children.

Working with others

The organization participated in inter-agency coordination mechanisms, including the Humanitarian Country Team, UN Country Team, Security Management Team and various sector working groups, with other UN agencies, international and national partners, and the Government. It led the protection and ES/NFI sectors, the refugee multi-sector, and co-led the returns sector with IOM. UNHCR also helped implement the 2013 UN and Partners Humanitarian Work Plan.

The Office's ES/NFI project managed the NFI Common Pipeline (CP) for Darfur, a partnership comprising the ES/NFI project, OCHA, and national and international NGOs. The Office managed CP warehouse operations in El Obeid, El Fasher, Nyala and Geneina.

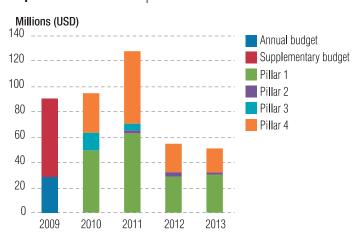

Financial information

The final 2013 comprehensive budget for Sudan amounted to USD 116.7 million. Available funding allowed for total expenditure of USD 50.6 million.

In addition to the regular programme, the Sudan operation managed the Common Pipeline for emergency shelters/non-food items (ES/NFI), with total requirements of USD 16.3 million. A total of USD 7.4 million in funding was available for this special project in 2013.

In Sudan, in 2013 UNHCR benefitted from three pooled funds: CERF, CHF and the Multi-Partner Trust Fund set up for the Transitional Solutions Initiative. These were significant funding sources for the operation.
