

The Kyrgyz Republic

National Office

Working with the Government to strengthen the **national asylum system** and support **local integration of refugees**

Advocating for immediate **birth registration, prevention of statelessness**, and accession to the **Statelessness Conventions**

Partnering for efficient **preparedness and response to forced displacement emergencies**

The escalation of violence on the Kyrgyz-Tajik border in 2022 displaced more than 142,000 people. With support from the People of Japan, UNHCR provided families like Borlubayev's with temporary housing units so they had a warm and safe home while their houses were being rebuilt.

Key Figures (as of 1 January 2023)

946

Refugees and Asylum-Seekers

from Afghanistan (513), Syria (72), Ukraine (24) and other countries.

203

known Stateless people

with more cases being discovered.

The operation in the Kyrgyz Republic is coordinated by the UNHCR Representation to Kazakhstan, the Kyrgyz Republic, Turkmenistan and Uzbekistan. In 2023, UNHCR requires \$6.4 million to protect refugees, asylum-seekers and stateless people across the four countries. As of 27 June 2023, the operations are 42% funded.

CONTACTS

Hans Friedrich Schodder, UNHCR Representative for Central Asia, schodder@unhcr.org

Ivan Saleyeu, Head of National Office, saleyeu@unhcr.org

Mariko Hall, External Relations Officer, hallma@unhcr.org

Protecting Refugees and Asylum-Seekers

UNHCR supports authorities in the Kyrgyz Republic to recognise, protect, and integrate refugees – serving both 'mandate' refugees (people recognised as refugees under UNHCR's mandate), and 'convention' refugees (asylum-seekers recognised as refugees by the State).

In December 2021, the Kyrgyz Republic made two [Global Compact on Refugees](#) pledges:

- To issue machine-readable travel documents for refugees and stateless persons recognized by the Kyrgyz Republic in line with ICAO standards.
- To ensure refugees and asylum-seekers have access to healthcare and social protection on par with citizens of the Kyrgyz Republic.

In collaboration with partners, UNHCR supports implementation of these pledges, advocates for naturalisation of 133 long-standing mandate refugees, and promotes integration of convention refugees.

As part of the ongoing legal inventory, UNHCR submitted comments on six draft laws to promote alignment with international standards and ensure refugees, asylum-seekers and stateless people in the Kyrgyz Republic can access due rights, including to health, education and employment.

Working with Partners

Government partners include the Ministries of Foreign Affairs; Labour, Social Security and Migration; Digital Development; Justice; Interior; and Emergencies; and the Border Service. UNHCR works through NGO partner, the Public Foundation Legal Clinic "Adilet".

As an active member of the UN Country Team and its Sustainable Development Cooperation Framework, UNHCR engages with UN and development partners, international financial institutions and other stakeholders to ensure that refugees, asylum-seekers and stateless people are not left behind in the Kyrgyz Republic's achievement of the Sustainable Development Goals. In the lead-up to the 2023 Global Refugee Forum, the UN Country Team defined country-level input for the UN Common Pledge 2.0, ensuring commitments made lead directly to measurable changes in the lives of refugees and stateless people.

With thanks to our donors

UNHCR is grateful for contributions directly to the Kyrgyz Republic National Office, as well as donors of unearmarked and flexible funding, including: Belgium | Denmark | European Union | France | Germany | Ireland | Netherlands | Norway | Republic of Korea | Sweden | Switzerland | United Kingdom | United States of America

UNHCR appreciates the important contributions of private donors in: Australia | Germany | Japan | Republic of Korea | Spain

Addressing and Preventing Statelessness

Encouraged by the global [#IBelong Campaign to End Statelessness](#), in 2019 the Kyrgyz Republic became the first country in the world to resolve all its known cases of statelessness. However, by the start of 2023, the number of cases had again grown to 203, with more likely to be discovered.

To prevent the re-occurrence of statelessness, UNHCR and partners support the Government to implement its pledges made at the October 2019 High-Level Segment on Statelessness:

- To provide birth certificates to children who do not have birth registration
- To align national birth registration legislation with international standards to ensure registration of birth of every child born in the Kyrgyz Republic
- To adopt regulations for determining the legal status of a stateless person
- To study the experience of State parties to the 1954 and 1961 Conventions on Statelessness.

Preparing for Emergencies

UNHCR engages with the UN Disaster Response Coordination Unit (DRCU) and UN Rapid Emergency Assessment and Coordination Team (REACT) to ensure a protection-sensitive approach in national, regional and interagency emergency preparedness and response efforts.

In 2022, as part of the DRCU response to the internal displacement emergency on the Kyrgyz-Tajik border, UNHCR led the Protection Sector and contributed to the Shelter and Non-Food Item Sector.

UNHCR supports the Government of the Kyrgyz Republic to enhance emergency preparedness and build national response capacities for situations of forced displacement.

UNHCR maintains email and phone 'hotlines' for anyone in need of information or consultation on refugee and asylum issues. People forced to flee can find key contacts and updated information on help.unhcr.org/centralasia.
