# 2003 GLOBAL REFUGEE TRENDS

OVERVIEW OF REFUGEE POPULATIONS, NEW ARRIVALS,  
DURABLE SOLUTIONS, ASYLUM-SEEKERS AND  
OTHER PERSONS OF CONCERN TO UNHCR

15 JUNE 2004

POPULATION DATA UNIT/PGDS  
DIVISION OF OPERATIONAL SUPPORT  
UNHCR GENEVA

[HTTP://WWW.UNHCR.ORG/STATISTICS](http://www.unhcr.org/statistics)

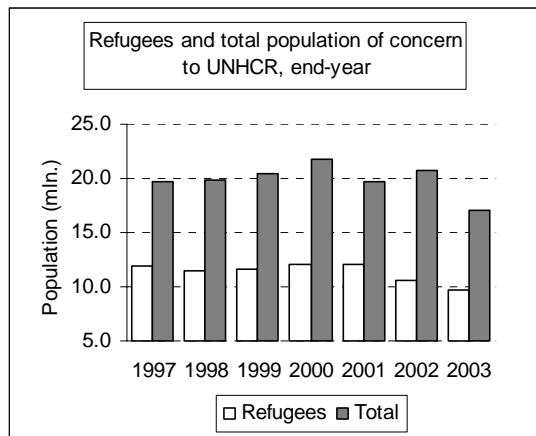

## Introduction

1. This report summarizes global levels and trends in the population of concern to UNHCR: refugees, asylum-seekers and others of concern. The data, reported by UNHCR country offices, generally reflect the view of the host country. The statistics contained in this note should be considered provisional and subject to change.

2. This note provides only the [main global trends](http://www.unhcr.org/statistics). For detailed statistics on 2003, see <http://www.unhcr.org/statistics>.

## Total population of concern

3. The total population of concern to UNHCR fell from 20.8 million persons at the end of 2002 to 17.1 million by the end of 2003 (-18%). Refugees constitute 57 per cent of the total population of concern to UNHCR, up from 51 per cent in 2002 (*see chart below*).

## Refugee population

4. By the end of 2003, the global number of refugees reached an estimated 9.7 million persons<sup>1</sup>. This constitutes a net decrease of approximately 920,000 refugees (-9%) since

<sup>1</sup> In addition, some 4 million Palestinian refugees fall under the responsibility of the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA). These refugees are not included in this note.

the beginning of 2003, when 10.6 million refugees were recorded.

5. About half (53%) of all refugees benefit from UNHCR assistance programmes. The number of refugees directly assisted through UNHCR fell by 570,000 persons (-10%) to 5.1 million refugees by the end of the year.

6. This is the second consecutive year in which the global refugee population has dropped sharply. Over the two-year period, the global refugee population has fallen by one-fifth. Decreases in the refugee population are often the result of refugees having access to durable solutions, in particular voluntary repatriation.

Refugee population by UNHCR Bureau, 2003			
UNHCR Bureau	Begin 2003	End 2003	Annual change
- Central Africa and Great Lakes	1,301,700	1,257,900	-3.4%
- East and Horn of Africa	937,600	768,100	-18.1%
- Southern Africa	321,200	306,200	-4.7%
- West Africa	528,000	531,200	0.6%
Total Africa*	3,088,500	2,863,400	-7.3%
CASWANAME**	3,363,500	2,914,700	-13.3%
Americas	656,000	623,900	-4.9%
Asia and Pacific	902,900	816,400	-9.6%
Europe	2,593,700	2,453,400	-5.4%
Total	10,604,600	9,671,800	-8.8%

\* Excluding North Africa.  
\*\* Central Asia, South West Asia, North Africa and Middle East.

7. In regional terms, the East and Horn of Africa recorded the largest reduction in the refugee population during 2003 (-18%), followed by the CASWANAME region (Central Asia, South-West Asia, North Africa and Middle East) (-13%) and Asia and Pacific (-10%). Smaller reductions in the refugee population were reported in Southern Africa (-5%), the Americas (-5%), Europe (-5%) and Central Africa and the Great Lakes region (-3%). West Africa was the only region where the refugee population increased, albeit slightly (0.6%) (*see box above*).

8. Africa and CASWANAME each hosted 30 per cent of the global refugee population at the end of 2003. Europe hosted 25 per cent of all refugees, followed by Asia and the Pacific (8%) and the Americas (6%).

**2003 Global Refugee Trends**  
**UNHCR Geneva, 15 June 2004**

9. Most beneficiaries of UNHCR programmes are located in developing countries. Almost 90 per cent are living in countries covered by the UNHCR Bureau for CASWANAME (47%) and Africa (40%).

10. In 2003, Pakistan continued to be the main asylum country, accounting for 12 per cent of all refugees under UNHCR mandate. The Islamic Republic of Iran, the second largest asylum country, experienced a significant drop in the number of refugees (-25%), whereas the number of refugees in Serbia and Montenegro dropped by 18 per cent. Most other major asylum countries recorded a more modest decrease in the refugee population during 2003. The number of refugees in the United Kingdom, as estimated by UNHCR, increased by 6 per cent (*see box below*).

Main countries of asylum, 2003			
Country of asylum	Begin 2003	End 2003	Annual change
Pakistan <sup>1</sup>	1,227,400	1,124,300	-8.4%
Islamic Rep. of Iran <sup>1</sup>	1,306,600	984,900	-24.6%
Germany	980,000	960,400	-2.0%
Tanzania (Rep. of)	689,400	649,800	-5.7%
United States <sup>2</sup>	485,200	452,500	-6.7%
China	297,300	299,400	0.7%
Serbia and Montenegro	354,400	291,400	-17.8%
United Kingdom <sup>2</sup>	260,700	276,500	6.1%
Saudi Arabia	245,200	240,800	-1.8%
Armenia	247,600	239,300	-3.4%

<sup>1</sup> UNHCR estimate, subject to review. See paragraph 11.  
<sup>2</sup> UNHCR estimate based on recent arrivals.

11. Afghanistan continues to be by far the largest country of origin of refugees under UNHCR care. By the end of 2003, 2.1 million Afghan refugees were reported by 74 asylum countries, constituting 22 per cent of the global refugee population. Nevertheless, due to continued repatriation, the number of Afghan refugees dropped by 15 per cent during the year<sup>2</sup>.

<sup>2</sup> UNHCR figures for Pakistan only include Afghan refugees living in camps. According to a 2001 Government survey, the latest estimates available, there were an additional 1.6 million Afghans living in urban areas in Pakistan, some of whom may be refugees. A recent registration of Afghan refugees in the Islamic Republic of Iran suggests that there are 600,000 more Afghan refugees than previously estimated. In 2004,

12. Other major refugee nationalities experiencing an important decrease during 2003 were Iraq (-13%) and Angola (-25%). The strong fall in the Angolan refugee population reflects the successful repatriation of refugees from the Democratic Republic of the Congo (77,000), Zambia (43,500), Namibia (9,500) and Republic of Congo (3,400) in 2003 (*see box below*).

Main origin of refugees, 2003			
Origin	Begin 2003	End 2003	Annual change
Afghanistan	2,510,300	2,136,000	-14.9%
Sudan	508,200	606,200	19.3%
Burundi	574,700	531,600	-7.5%
DR Congo	424,900	453,400	6.7%
Palestinians	428,800	427,800	-0.2%
Somalia	432,200	402,200	-6.9%
Iraq	422,100	368,400	-12.7%
Viet Nam	373,700	363,200	-2.8%
Liberia	275,600	353,300	28.2%
Angola	429,400	323,600	-24.6%

13. Significant decreases in the refugee population, often as a result of durable solutions, were also recorded for refugees from Bosnia and Herzegovina (-108,000), Sierra Leone (-77,000), Croatia (-45,000), Burundi (-43,000), Somalia (-30,000), Timor-Leste (-28,000) and Serbia and Montenegro (-27,000).

14. The global number of Eritrean refugees fell by 194,000, largely due to application of the cessation clause for Eritrean refugees which came into effect on 31 December 2002.

15. However, some refugee nationalities recorded an increase in the population during 2003, often due to new arrivals. The number of Sudanese refugees increased by almost 100,000 persons due to mass outflows, mainly to Chad (98,000). Similarly, the number of refugees from Liberia increased by 28 per cent following mass movements into Côte d'Ivoire (41,000), Guinea (31,000), Sierra Leone (11,000) and Ghana (4,400).

estimates for the Afghan refugee population are subject to revision in consultation with both Governments.

## Refugee arrivals

16. During 2003, some 310,000 *prima facie* refugee arrivals were reported, creating new refugee emergencies in various asylum countries. The level of new outflows in 2003 was 6 per cent higher than in 2002 when 293,000 refugees fled their country *en masse*.

17. Fifteen asylum countries reported the arrival of more than 1,000 *prima facie* refugees during 2003, including Chad (131,000), Côte d'Ivoire (40,800), Guinea (37,100), Liberia (15,800), United Republic of Tanzania (13,400), Yemen (12,300), Burundi (11,100) and Sierra Leone (10,800).

18. There were six countries of origin which produced more than 10,000 refugees in 2003: Sudan (112,000), Liberia (87,000), Central African Republic (33,000), Democratic Republic of the Congo (30,000), Côte d'Ivoire (22,000) and Somalia (14,800).

## Voluntary repatriation

19. Based on reports from countries of asylum (departure) and origin (arrival), it is estimated that some 1.1 million refugees repatriated voluntarily to their country of origin during 2003. In all, there was a total of 34 voluntary repatriation movements involving more than 1,000 refugees.

20. The main countries of origin to which refugees returned during 2003 included Afghanistan (646,000), Angola (133,000), Burundi (82,000), Iraq (55,000), Sierra Leone (33,000), Rwanda (23,000), Liberia (21,000), Côte d'Ivoire (16,500), Bosnia and Herzegovina (14,000), Somalia (10,300) and Eritrea (10,000).

21. The past two years saw an almost unprecedented level of voluntary repatriation, mainly due to the return of more than 2.6 million Afghans from Pakistan and the Islamic Republic of Iran. In total, 3.5 million refugees were able to return home.

## Resettlement

22. In 2003, almost 26,000 refugees were resettled from first asylum countries with UNHCR assistance. The main nationalities benefiting from UNHCR-facilitated resettlement were refugees from Sudan (5,160), Afghanistan (3,560), Somalia (3,310), Ethiopia (3,030), the Islamic Republic of Iran (2,670), Liberia (2,140) and Iraq (1,270).

23. Some 75 UNHCR country offices were engaged in facilitating resettlement departures during 2003. The largest number of refugees resettled with UNHCR assistance departed from Kenya (7,300), Egypt (3,510), Turkey (2,940), Côte d'Ivoire (1,650), Pakistan (1,290), the Islamic Republic of Iran (910), India (750), Ethiopia (620) and Guinea (540).

24. In 2003, twenty-four countries received refugees resettled under UNHCR-auspices. The main countries which resettled refugees through UNHCR were USA (54%), Canada (17%), Australia (15%), Norway (5%) and Sweden (3%).

25. Immigration countries resettle refugees through UNHCR as well as bilaterally. Taking into account both, the US admitted the largest number of resettled refugees (28,400 during US Fiscal Year), followed by Australia (11,900) and Canada (10,700).

## Local integration

26. In many countries, refugees have the opportunity to integrate locally because the host country has provided them with access to land or the labour market. In other countries, refugees remain confined to camps where they depend on assistance from the international community. Using UNHCR beneficiary statistics, it is possible to determine the degree to which refugees depend on the international community for their survival. Industrialized countries, where assistance is generally provided by the host country, are not included in this analysis.

27. By the end of 2003, 73 per cent of the 6.5 million refugees hosted by developing countries had access to assistance provided by or through UNHCR. The proportion of refugees benefiting from international assistance varies greatly, reflecting the different opportunities provided to refugees by the host country for local integration and self-reliance. Major asylum countries where less than 75 per cent of the refugee population depends on international aid include the United Republic of Tanzania (74%), Guinea (60%), Zambia (59%), Democratic Republic of the Congo (24%), India (7%), China (4%) and Saudi Arabia (0%).

28. Naturalization, the final and crucial step towards obtaining the full protection of the host country, is not available to refugees in all asylum countries. Moreover, the provision of citizenship to refugees is under-reported. During 2003, UNHCR was informed about significant numbers of refugees being granted citizenship by the host country in Indonesia (28,100), Armenia (8,300), Russian Federation (6,300), Kyrgyzstan (1,800), Mexico (1,100), Ireland (750), Croatia (220), Belize (190) and Ukraine (155).

### **Legal status**

29. It is estimated that 40 per cent of the refugee population under UNHCR care has been granted protection under the 1951 Convention and/or its 1967 Protocol. An additional 20 per cent of the refugees are recognized under the 1969 OAU Convention, whereas 13 per cent have been granted UNHCR mandate status. The legal status of more than a quarter (27%) of the refugees is unclear.

30. The majority of the world's refugees (64%) have been granted refugee status on a group or *prima facie* basis, whereas almost a quarter (24%) have been granted refugee status following individual determination.

31. The large majority of refugees in Africa (84%), CASWANAME (83%) and Asia and Pacific (76%) are *prima facie* refugees,

which contrasts starkly with Europe (31%) and the Americas (1%), where most refugees have been granted refugee status following individual screening. These regional differences in recognition are explained in large part by the nature of the refugee situation (mass displacement versus individual asylum-seekers) as well as by the level of economic development (individual refugee status determination is resource intensive).

### **Gender and age**

32. About half of the world's refugees are female (49%). The proportion of female refugees varies greatly, depending on the nature of the refugee situation, the region of asylum, age, etc. For instance, in countries with mass refugee situations, the proportion of female refugees tends to be around 50 per cent. The percentage of females among asylum-seekers is significantly lower. Women are over-represented in the older age category (60 and over), reflecting the higher life expectancy of women in general.

33. Some 43 per cent of the population of concern to UNHCR are children under the age of 18, whereas 11 per cent are under the age of five. Half of the refugees (49%) are aged between 18 and 59, whereas 8 per cent are 60 years old or more. Considering that most demographic data are available on refugees living in developing countries, these figures are not fully representative for all refugees, however.

34. In Africa and the CASWANAME region, where birth rates tend to be high, more than half of the refugees are under 18 years old. The proportion of refugee children is significantly lower in Asia and the Pacific (36%), Europe (26%) and the Americas (20%).

### **Asylum-seekers**

35. During 2003, a total number of 807,000 first instance or appeal applications for asylum or refugee status were submitted to Governments or UNHCR offices in 141 countries. Most claims were registered in

Europe (511,000), followed by the Americas (155,000), Africa (88,000), Asia and the Pacific (31,000) and CASWANAME (22,000).

36. Countries receiving the largest number of new asylum claims during 2003 were France (59,800), Germany (50,600), the United Kingdom (49,400), the United States (43,300), South Africa (35,900), Austria (32,400), Canada (31,900) and Sweden (31,300)<sup>3</sup>.

37. The largest number of new and appeal asylum claims in were filed by nationals from Russian Federation (38,900), China (37,100), Serbia and Montenegro (36,700), Democratic Republic of the Congo (35,800), Turkey (33,800), Iraq (32,100), Colombia (29,400), Afghanistan (22,400) and Nigeria (21,300).

38. In Europe, 51,000 asylum-seekers were granted individual refugee status under the 1951 Convention in 2003 and another 37,400 asylum-seekers were allowed to remain on humanitarian grounds. In the Americas, 47,000 asylum-seekers were recognized as refugees. Africa was the third largest region in terms of the number of asylum-seekers being recognized in 2003 (24,000), followed by CASWANAME (12,500) and Asia and the Pacific (3,000).

39. The category of asylum-seekers in the total population of concern to UNHCR consists of those asylum-seekers whose claim has not yet been decided or who are otherwise registered as asylum-seekers. The number of undecided asylum cases, both in first instance and appeal, decreased by 12 per cent to reach 995,000 by the end of the year. A fall in the backlog of asylum cases

generally indicates that asylum procedures have become more efficient.

40. At the end of 2003, the largest number of undecided cases at the first instance and appeal level was reported by the United States (335,000), Germany (154,000), South Africa (84,000), the Netherlands (45,000), Canada (42,000), Sweden (35,000) and Austria (32,300). Whereas many countries were able to reduce the number of undecided cases during 2003, increases in the backlog were reported by South Africa (60%), Belgium (13%), Austria (10%) and Sweden (6%).

### **Others of concern to UNHCR**

41. The total number of others of concern to UNHCR (internally displaced or IDPs, returned IDPs, stateless, etc.) stood at 5.3 million at the end of 2003, 21 per cent lower than in 2002 (6.8 million).

42. Significant durable solutions during the year were not only achieved for refugees, but also for internally displaced. The number of IDPs of concern to UNHCR fell by 460,000 persons (-10%) during 2003. Most IDP operations reported a decrease in the number of IDPs, including Afghanistan (-480,000), Angola (-189,000), Burundi (-98,000), Sri Lanka (-77,000), Côte d'Ivoire (-62,000) and Bosnia and Herzegovina (-40,000). Four IDP situations were no longer reported by UNHCR offices in 2003 (Angola, Democratic Republic of the Congo, FYR Macedonia and Republic of Moldova).

43. A number of IDP situations, however, appear to be protracted with few durable solutions being achieved in 2003. Thus, the number of IDPs remained stable in Azerbaijan (576,000), Georgia (260,000), the Russian Federation (368,000) and Serbia and Montenegro (257,000). Two IDP situations under UNHCR care reported a significant increase in internal displacement in 2003, including Colombia (+294,000) and Liberia (+227,000).

44. Eighteen countries reported persons of concern who do not fit any of the above

---

<sup>3</sup> UK and USA: number of cases. In the UK, 61,050 persons applied for asylum in 2003. During US Fiscal Year 2003, some 60,700 persons applied for asylum (source: Department of Homeland Security). For a detailed analysis of asylum trends in industrialized countries, see *Asylum Levels and Trends: Europe and non-European Industrialized Countries, 2003* (UNHCR Geneva, February 2004, available at <http://www.unhcr.org/statistics>).

categories. In total, this group numbered 912,000 persons by the end of 2003, a 4 per cent decrease compared to the end of 2002. Russian Federation hosts 407,000 of these “Others of concern”, including “Internally Relocated Persons” (IRPs), (291,000), Afghan asylum-seekers (100,000), Meskhetians (11,000), and non-CIS asylum-seekers (5,800).

45. One of the largest gains in this category was reported for Malaysia due to a reclassification of Filipino Muslims and refugees from Myanmar formerly reported as refugees (66,000 by the end of 2003). The number of stateless persons reported for the Ukraine increased by 70,000 during 2003.

**Notes**

The data are generally provided by Governments, based on their own definitions and methods of data collection.

A dash (-) indicates that the value is zero, not available or not applicable.

<sup>1</sup> UNHCR region and country or territory of asylum or residence. In the absence of Government figures, UNHCR has estimated the refugee population in many industrialized countries, based on recent refugee arrivals and recognition of asylum-seekers. For Canada, USA, Australia and New Zealand, estimates are based on arrivals/recognition during the past five years, whereas for European countries a 10-year period has been applied. These periods reflect the different naturalization rates for refugees.

<sup>2</sup> Persons recognized as refugees under the 1951 UN Convention/1967 Protocol, the 1969 OAU Convention, in accordance with the UNHCR Statute, persons granted a humanitarian status and those granted temporary protection.

<sup>3</sup> Persons whose application for asylum or refugee status is pending at any stage in the procedure or who are otherwise registered as asylum-seekers.

<sup>4</sup> Refugees who have returned to their place of origin during the year. Source: Country of origin and asylum.

<sup>5</sup> Persons who are displaced within their country and to whom UNHCR extends protection and/or assistance, generally pursuant to a special request by a competent organ of the United Nations.

<sup>6</sup> IDPs of concern to UNHCR who have returned to their place of origin during the year.

<sup>7</sup> Persons of concern to UNHCR not included in the previous columns. See Table 14 for further details.

\* Refugee population estimated by UNHCR. This figure is currently being reviewed by UNHCR.

\*\* Refugee population estimated by UNHCR. This figure, which does not include Afghans in urban areas, is currently being reviewed by UNHCR.

\*\*\* 2002 data (2003 not received).

**Table 2. Refugee population and changes by country of asylum, 2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

For many industrialized countries, UNHCR has estimated the refugee population (see Table 1, footnote 1). \*Voluntary repatriation: best estimate, based on country of asylum and origin reports.

The columns Other increases and Other decreases include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths.

In some cases, the population end-year does not equal the population begin-year plus increases and minus decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often not known.

**Table 2. Refugee population and changes by country of asylum, 2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

For many industrialized countries, UNHCR has estimated the refugee population (see Table 1, footnote 1). \*Voluntary repatriation: best estimate, based on country of asylum and origin reports.

The columns Other increases and Other decreases include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths.

In some cases, the population end-year does not equal the population begin-year plus increases and minus decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often not known.

<sup>1</sup> Refugee population estimated by UNHCR. This figure is currently being reviewed by UNHCR.<sup>2</sup> Refugee population estimated by UNHCR. This figure, which does not include Afghans in urban areas, is currently being reviewed by UNHCR.

\*\* End-2003 refugee population figure not yet available.

**Table 3. Refugee population and changes by origin, 2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

For many industrialized countries, UNHCR has estimated the refugee population (see Table 1, footnote 1). \*Voluntary repatriation: best estimate, based on country of asylum and origin reports.

The columns Other increases and Other decreases include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths.

In some cases, the population end-year does not equal the population begin-year plus increases and minus decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often not known.

**Table 3. Refugee population and changes by origin, 2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

For many industrialized countries, UNHCR has estimated the refugee population (see Table 1, footnote 1). \*Voluntary repatriation: best estimate, based on country of asylum and origin reports.

The columns Other increases and Other decreases include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths.

In some cases, the population end-year does not equal the population begin-year plus increases and minus decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often not known.

<sup>1</sup> Refugee population estimated by UNHCR. This figure is currently being reviewed by UNHCR.<sup>2</sup> Refugee population estimated by UNHCR. This figure, which does not include Afghans in urban areas, is currently being reviewed by UNHCR.

Iraq, Luxembourg and Malta: refugee population in these countries for end-2003 not yet available.

**Table 5. Asylum applications and refugee status determination by country of asylum, 2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

See notes at end of table.

**Important note:**

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases have been counted more than once (once in first instance and once in appeal). These data allow to monitor the number of decisions taken but they are not indicative of the final outcome of the procedure. For information on recognition rates see Table 6.

**Table 5. Asylum applications and refugee status determination by country of asylum, 2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

See notes at end of table.

**Important note:**

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases have been counted more than once (once in first instance and once in appeal). These data allow to monitor the number of decisions taken but they are not indicative of the final outcome of the procedure. For information on recognition rates see Table 6.

**Notes:**

A dash ("-") indicates that the value is zero or not available.

For information on the source and type of procedure, see Table 6.

\* Protection indicators (calculated by UNHCR):

Otherwise closed rate: Otherwise closed divided by Total no. of decisions \* 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January \* 100%

\*\* Data for 2003 not available.

**Notes:**

A dash ("-") indicates that the value is zero or not available.

\* Protection indicators (calculated by UNHCR):

Refugee status recognition rate: Recognized divided by total of Recognized, Other positive and Rejected \* 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected \* 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions \* 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January \* 100%.

T=Type: G=Government; U=UNHCR; V=Government and UNHCR/unknown.

\*\* L=Level: NA=New Applications; FI=First instance decisions; AR=Administrative Review decisions; RA=Repeat/reopened applications; IN= US Immigration and Naturalization Service;

EO=US Executive Office of Immigration Review; JR= Including Judicial Review. CA= Swiss cantonal regulations

\*\*\* Data for 2003 not available.

**Table 7. Asylum applications and refugee status determination by origin, 2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

See notes at end of table.

**Important note:**

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases have been counted more than once (once in first instance and once in appeal). These data allow to monitor the number of decisions taken, but they are not indicative of the final outcome of the procedure. For instance, recognition rates for nationalities which tend to appeal a rejection are underestimated.

**Table 7. Asylum applications and refugee status determination by origin, 2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

See notes at end of table.

**Important note:**

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases have been counted more than once (once in first instance and once in appeal). These data allow to monitor the number of decisions taken, but they are not indicative of the final outcome of the procedure. For instance, recognition rates for nationalities which tend to appeal a rejection are underestimated.

**Table 7. Asylum applications and refugee status determination by origin, 2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

See notes at end of table.

**Important note:**

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases have been counted more than once (once in first instance and once in appeal). These data allow to monitor the number of decisions taken, but they are not indicative of the final outcome of the procedure. For instance, recognition rates for nationalities which tend to appeal a rejection are underestimated.

**Notes:**

A dash ("-") indicates that the value is zero or not available.

\* Protection indicators (calculated by UNHCR):

Refugee status recognition rate: Recognized divided by total of Recognized, Other positive and Rejected \* 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected \* 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions \* 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January \* 100%.

**Table 8. Asylum applications and refugee status determination by origin and country of asylum, 2003**

Total number of applications submitted 100 or more.

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

See notes at end of table. Values between 1 and 4 have been replaced with an asterisk (\*).

**Table 8. Asylum applications and refugee status determination by origin and country of asylum, 2003**

Total number of applications submitted 100 or more.

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

See notes at end of table. Values between 1 and 4 have been replaced with an asterisk (\*).

Origin	Procedure		Country/ territory of asylum	Pending begin year	Applied since 1 Jan.	Decisions during the year					Pending end-year	Protection indicators*		
	T	L		Total		Positive		Reject- ed	Otherw. closed	Total	Total	Recognition rates		O/w. closed rate
	Recog- nized	Other (hum.)	Ref. status			Total								

**Notes:**  
 A dash ("-") indicates that the value is zero or not available.  
 \* Protection indicators (calculated by UNHCR):  
 Refugee status recognition rate: Recognized divided by total of Recognized, Other positive and Rejected \* 100%.  
 Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected \* 100%.  
 Otherwise closed rate: Otherwise closed divided by Total no. of decisions \* 100%.  
 Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January \* 100%.  
 Decisions in first instance by origin for Australia not yet available.  
  
 T=Type: G=Government; U=UNHCR; V=Government and UNHCR/unknown.  
 \*\* L=Level: NA=New Applications; FI=First instance decisions; AR=Administrative Review decisions; RA=Repeat/reopened applications; IN= US Immigration and Naturalization Service;  
 EO=US Executive Office of Immigration Review; JR= Including Judicial Review. CA= Swiss cantonal regulations.

**Table 10. Demographic composition of populations of concern to UNHCR, end-2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

\* Indicates the proportion of the population of concern in the country for which the demographic data are available. If the coverage is below 10-20 per cent, the percentages may not be representative for total population of concern in the country.

**Important notes:**

The population for which demographic data is available does not necessarily equal the total population of concern in the country. Countries with no demographic information are not included.

**Table 10. Demographic composition of populations of concern to UNHCR, end-2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

\* Indicates the proportion of the population of concern in the country for which the demographic data are available. If the coverage is below 10-20 per cent, the percentages may not be representative for total population of concern in the country.

**Important notes:**

The population for which demographic data is available does not necessarily equal the total population of concern in the country. Countries with no demographic information are not included.

**Table 11. Major locations and demographic composition of populations of concern to UNHCR, end-2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

\* Type of location: C=Camps, centers; U=Urban; D=Dispersed/various.

\*\* Indicates the proportion of the population of concern at the location for which the demographic characteristics are available.

Locations where the population numbered 100 or more only. Name of location as provided by UNHCR country office.

**Important notes:**

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no location or demographic information are not included.

**Table 11. Major locations and demographic composition of populations of concern to UNHCR, end-2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

\* Type of location: C=Camps, centers; U=Urban; D=Dispersed/various.

\*\* Indicates the proportion of the population of concern at the location for which the demographic characteristics are available.

Locations where the population numbered 100 or more only. Name of location as provided by UNHCR country office.

**Important notes:**

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no location or demographic information are not included.

**Table 11. Major locations and demographic composition of populations of concern to UNHCR, end-2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

\* Type of location: C=Camps, centers; U=Urban; D=Dispersed/various.

\*\* Indicates the proportion of the population of concern at the location for which the demographic characteristics are available.

Locations where the population numbered 100 or more only. Name of location as provided by UNHCR country office.

**Important notes:**

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no location or demographic information are not included.

Country of asylum/residence	Type of location	Name of location	Population of concern to UNHCR at location	Demographic indicators												Coverage*

**Table 11. Major locations and demographic composition of populations of concern to UNHCR, end-2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

\* Type of location: C=Camps, centers; U=Urban; D=Dispersed/various.

\*\* Indicates the proportion of the population of concern at the location for which the demographic characteristics are available.

Locations where the population numbered 100 or more only. Name of location as provided by UNHCR country office.

**Important notes:**

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no location or demographic information are not included.

**Table 11. Major locations and demographic composition of populations of concern to UNHCR, end-2003**

Source: 2003 ASR. Data are provisional and subject to change. Date of query: 9 June 2004

\* Type of location: C=Camps, centers; U=Urban; D=Dispersed/various.

\*\* Indicates the proportion of the population of concern at the location for which the demographic characteristics are available.

Locations where the population numbered 100 or more only. Name of location as provided by UNHCR country office.

**Important notes:**

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no location or demographic information are not included.
