**Standing Committee
Eighty-third meeting**

Update on budgets and funding (2021 and 2022)*Summary*

In October 2019, at its seventieth session, the Executive Committee approved an original annual budget of \$8,615.8 million for 2021. In October 2020, at its seventy-first session, the Executive Committee approved a revised budget of the same amount.

During the course of 2021, four supplementary budgets amounting to a combined total of \$631.7 million were established to support activities to protect refugees and other persons of concern from the impact of the coronavirus disease (COVID-19) pandemic and in support of the Afghan, Ethiopia and Venezuela situations. These supplementary budgets bring the total final budget for 2021 to \$9,247.6 million as of 31 December 2021.

The original budget for 2022 as approved by the Executive Committee at its seventy-second plenary session in October 2021 amounted to \$8,993.7 million. Two supplementary budgets have since been established in the amount of \$293.5 million in support of the Afghan situation and the scaling up of the response to the emergencies in Cameroon and Chad under the Cameroon situation, bringing the current total budget for 2022 to \$9,287.2 million as at 31 January 2022, the cut-off date for this report.

As at 31 January 2022, pending the annual closure of the accounts for 2021, the provisional total funds available for 2021 amount to \$5,162.1 million, while provisional expenditure stands at \$4,918.0 million. When comparing the final annual budget for 2021 to the provisional funds available, the funding gap amounts to \$4,085.4 million, or 44 per cent.

A draft decision on budgets and funding for 2021 and 2022 is provided in annex X.

I. Introduction

1. This document provides a preliminary update on the 2021 budget.¹ As the closure of accounts has not yet been completed, all year-end figures for 2021 are provisional. This document also provides an overview of the estimated budget requirements for 2022 as at 31 January 2022.

- The revised and final annual budget and provisional expenditure for 2021 are summarized in annex I.
- Annex II(a) and II(b) show transfers from the operational reserve for 2021 and 2022.
- Annex III provides the list of transfers from the “new or additional activities – mandate-related” reserve for 2021.
- Annexes IV(a) and IV(b) provide an overview of the supplementary budgets by situation, as well as region and subregion, for 2021 and 2022.
- Annex V shows overall contributions recorded for 2021.
- Annex VI gives a breakdown by country of 2021 contributions from non-governmental organizations, foundations, and private donors.
- Annex VII provides the list of unearmarked and softly earmarked voluntary contributions in 2021.
- Annex VIII shows the original and current annual budgets for 2022 as of 31 January 2022.
- Annex IX shows the latest provisional (mid-2021) statistics for populations of concern to UNHCR.
- Annex X provides the draft decision on budgets and funding for 2021 and 2022.

2. The final annual budget, funding and expenditure figures for 2021, which will be available following the closure of accounts on 31 March 2022, will be reported at the eighty-fourth meeting of the Standing Committee in June 2022.

II. Budgets and funding for 2021

Total budget

3. In October 2019, at its seventieth session, the Executive Committee approved an original annual budget of \$8,615.8 million for 2021.² In October 2020, at its seventy-first session, the Executive Committee approved the revised annual budget of at the same level of \$8,615.8 for 2021.³ The final 2021 budget of \$9,247.6 million represents the sum of the approved revised budget of \$8,615.8 million and the final supplementary budgets of \$631.7 million established by the High Commissioner in the course of 2021 in accordance with article 7.5 of the UNHCR financial rules and regulations. Details of the final 2021 budget is provided in annex I.

Supplementary budgets

4. At the eighty-second meeting of the Standing Committee in September 2021, UNHCR reported three supplementary budgets established in 2021 totalling \$552.5 million as at 31 July 2021: \$454.8 million in support of activities to protect refugees and other persons of concern from the impact of the COVID-19 pandemic, \$81.6 million in support of the Ethiopia situation and \$16.0 million in support of the Venezuela situation. Two further supplementary budgets were subsequently established: \$64.2 million to meet additional needs in preparedness and response in respect to the Afghan situation and additional \$15.0 million for

¹ Figures are presented in millions of United States dollars. The totals in this document may not add up due to rounding.

² See A/AC.96/1191

³ See A/AC.96/1202

the Ethiopia situation. This brings the total final supplementary budgets to \$631.7 million as of 31 December 2021. An overview of supplementary budgets by situation is provided in table II.1 below. A breakdown of the 2021 supplementary budgets by situation, region and pillar is shown in annex IV(a).

Preliminary programme assessment including COVID-19

5. The continuation of the COVID-19 pandemic required UNHCR to adjust programming to mitigate the impact of the virus. UNHCR focused on bolstering public health services, water, sanitation and hygiene activities, education programming and the provision of shelter and core relief items. The programme also addressed additional protection and socioeconomic needs arising from the pandemic. The activities targeted individuals who had become vulnerable due to loss of income or who were already vulnerable, but whose situation had further deteriorated. Specific attention was paid to women and girls because of heightened risks associated with COVID-19. UNHCR advocated equal access to vaccines for persons of concern and carried out information campaigns about risks and mitigation measures. The Office addressed challenges by swiftly identifying needs, reprioritizing and reallocating resources and introducing measures to increase flexibility. Against the backdrop of the ongoing pandemic, UNHCR responded to new and growing displacement crises, with 40 new emergency declarations in 2021. Despite persistent challenges, key advances were made towards more predictable and equitable burden- and responsibility-sharing within the framework of the global compact on refugees.

Table II.1
2021 supplementary budgets – as at 31 December 2021

In millions of US dollars

	<i>As at 31 July 2021</i>	<i>Subsequent Revisions</i>	<i>Final as at 31 December 2021</i>
COVID-19 Emergency	454.8	-	454.8
Ethiopia Situation	81.6	15.0	96.6
Venezuela Situation	16.0	-	16.0
Afghan Situation	-	64.2	64.2
Total	552.5	79.2	631.7

Pillar distribution

6. The pillar distribution of the final annual budget for 2021 of \$9,247.6 million is shown in table II.2 below.

Table II.2
2021 final annual budget – as at 31 December 2021

In millions of US dollars

	<i>2021 final budget</i>	
	<i>Requirements</i>	<i>Percentage over total</i>
Global refugee programme (Pillar 1)	7,044.8	76.2%
Global stateless programme (Pillar 2)	78.6	0.8%
Global reintegration projects (Pillar 3)	654.1	7.1%
Global IDP projects (Pillar 4)	1,470.0	15.9%
Total	9,247.6	100%

Preliminary year-end financial analysis

7. The final budget for 2021 of \$9,247.6 million comprises programmed activities of \$8,813.5 million; an operational reserve of \$402.1 million; the “new or additional activities

– mandate-related” reserve of \$20 million; and \$12 million for Junior Professional Officers, as shown in annex I.

8. The preliminary financial analysis for 2021 based on provisional figures and pending the financial closure of accounts is described below and summarized in table II.3.

9. The provisional funds available for the period ending 31 December 2021 stand at \$5,162.1 million. This amount comprised:

- \$565.9 million carried over from the budget year 2020;
- \$4,636.7 million in voluntary contributions recorded in 2021, plus \$107.4 million recorded in prior years for activities with implementation in 2021, minus \$221.1 million recorded in 2021 for activities with implementation in future years, as shown in annex V;
- \$43.2 million allotted to UNHCR from the United Nations regular budget;
- \$30 million currently estimated in other funds available and adjustments, mainly prior-year cancellations and adjustments, and miscellaneous income.

10. When compared to the \$5,403.6 million available in 2020, the provisional amount of funds available in 2021 decreased by \$241.4 million, or 4.7 per cent. This is mainly due to the decrease in other funds available and adjustments, as well as in voluntary contributions.

11. Comparing the total funds available of \$5,162.1 million for 2021 with the total assessed needs of \$9,247.6 million for the same year, the funding gap amounted to \$4,085.4 million, or 44 per cent of the total requirements.

12. Pending the closure of 2021 accounts, provisional expenditure amounts to \$4,918.0 million a record high for UNHCR, \$80.3 million or approximately 2 per cent more than the \$4,837.7 million expenditure in 2020.

13. The carry-over into 2022 is projected to be \$244.2 million, which includes funds earmarked for specific operations.

III. Overview of 2022

Total requirements

14. The original annual budget for 2022 approved by the Executive Committee at its seventy-second plenary session in October 2021, was \$ \$8,993.7 million.⁴

⁴ See A/AC.96/1213/Rev.1

Supplementary budgets

15. As at the cut-off date for this report, the High Commissioner had established two supplementary budgets for 2022 amounting to \$293.5 million: \$233.9 million for the Afghan situation in response to the critical humanitarian needs of internally displaced persons (IDPs) and new arrivals in the neighbouring countries due to the conflict; and \$59.6 million to enable the scale up of the response to the emergencies in Chad and Cameroon under the Cameroon situation. This brings the total current budget for 2022 to \$9,287.2 million as at 31 January 2022. A breakdown of 2021 supplementary budgets by situation, region and impact area is shown in annex IV(b).

Impact areas

16. The 2022 current budget is presented in Table III.1 below. It incorporates internal transfers and adjustments made by the High Commissioner in accordance with financial rule 7.4. It is presented by impact area in accordance with the new global results framework. Further details are provided in annex VIII.

Table III.1

	<i>2022 budget</i>	
	<i>Requirements</i>	<i>Percentage over total</i>
IA 1: Attaining favourable protection environments	1,936.7	20.9%
IA 2: Realizing basic rights in safe environments	4,456.4	48.0%
IA 3: Empowering communities and achieving gender equality	1,411.3	15.2%
IA 4: Securing solutions	1,043.0	11.2%
Subtotal programmed activities	8,847.5	95%
Operational reserve (OR)	427.7	5%
Junior Professional Officer Programme	12.0	0%
Total	9,287.2	100%

17. Donor response at the Ad hoc Committee of the General Assembly for the Announcement of Voluntary Contributions to the High Commissioner's Programme (Pledging Conference), held in December 2021, confirmed a sustained commitment to supporting the vital programmes of UNHCR. Initial pledges for 2022 reached \$1,092.4 million. Although this amount does not cover the assessed needs of persons of concern to UNHCR, it enables the Office to plan and continue operations that provide life-saving assistance and protection without interruption. Donors are encouraged to continue to respond generously to the High Commissioner's appeal for resources to meet the requirements for 2022, including through unearmarked funds.

Notes
The data are generally provided by governments, based on their own definitions and methods of data collection
¹ Country or territory of asylum or residence.
² Refugees include individuals recognized under the 1951 Convention relating to the Status of Refugees, its 1967 Protocol, the 1969 Organization of African Unity (OAU) Convention Governing the Specific Aspects of Refugee Problems in Africa, the refugee definition contained in the 1984 Cartagena Declaration on Refugees as incorporated into national laws, those recognized in accordance with the UNHCR Statute, individuals granted complementary forms of protection, and those enjoying temporary protection. In the absence of Government figures, UNHCR has estimated the refugee population in many industrialized countries based on 10 years of individual asylum-seeker recognition.
³ This category is descriptive in nature and includes groups of people who are outside their country or territory of origin and who face protection risks similar to those of refugees, but for whom refugee status has, for practical or other reasons, not been ascertained.
⁴ Asylum-seekers (with pending cases) are individuals who have sought international protection and whose claims for refugee status have not yet been determined. Those covered in this table refer to claimants whose individual applications were pending as of June 2020, irrespective of when those claims may have been lodged.
⁵ Refugees who have returned to their place of origin during 2020. Source: country of origin and asylum.
⁶ IDPs are persons or groups of persons who have been forced or obliged to flee or to leave their homes or places of habitual residence, in particular as a result of, or in order to avoid the effects of armed conflict, situations of generalized violence, violations of human rights or natural or human-made disasters, and who have not crossed an internationally recognized State border. For the purposes of UNHCR's statistics, this population includes only conflict-generated IDPs to whom the Office extends protection and/or assistance.
⁷ IDPs of concern to UNHCR who have returned to their place of origin during 2020.
⁸ Refers to persons who are not considered as nationals by any State under the operation of its law. This category refers to persons who fall under the agency's statelessness mandate because they are stateless according to this international definition, but data from some countries may also include persons with undetermined nationality. The figure reported includes stateless persons who are also refugees or asylum-seekers from Myanmar, IDPs in Myanmar, or others of concern to UNHCR. UNHCR's statistical reporting generally follows a methodology that reports on one legal status for each person of concern only. However, due to the extraordinary size of the displaced stateless population from Myanmar, UNHCR considers it important to reflect the dual status that this population group possesses. Additional stateless refugees, asylum seekers, and IDPs will be reported on as UNHCR continues to review and improve its reporting on stateless persons with a dual status.
⁹ Refers to individuals who do not necessarily fall directly into any of these groups above but to whom UNHCR has extended its protection and/or assistance services, based on humanitarian or other special grounds.
¹⁰ Venezuelans displaced abroad refers to persons of Venezuelan origin who are likely to be in need of international protection under the criteria contained in the Cartagena Declaration, but who have not applied for asylum in the country in which they are present. Regardless of status, Venezuelans displaced abroad require protection against forced returns, and access to basic services. UNHCR and the International Organization for Migration work together with this population by leading the Regional Inter-Agency Coordination Platform, which is aimed at strengthening the protection dimensions and consistent responses across the region in line with human rights standards.
¹¹ From various sources such as civil status offices, health institutions, schools, municipal child protection units, and social services, UNHCR estimates the number of people with undetermined nationality (at risk of statelessness).
¹² According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps. Statistical data relating to refugees are entirely for humanitarian purposes. The total number of persons in need of humanitarian assistance services is estimated to be far higher than this figure.
¹³ The methodology for estimating the number of refugees in Australia is under review and subject to adjustment in future reports. The asylum-seeker figure is based on the number of applications lodged for protection visas.
¹⁴ No official data on the actual number of refugees residing in Bulgaria is available. According to estimates, between 1,000 and 2,000 refugees and humanitarian status holders remain in the country. It is expected that the 2021 National Census, which will include the first-time refugee and stateless populations, will provide more accurate data.

<p>¹⁵ The statistics on asylum-seekers (new applications, re-opened/repeat applications and/or appeal application) and refugees individually recognized in Canada include persons who had their claim assessed before the Refugee Protection Division and the Refugee Appeal Division of the Immigration Refugee Board as well as by the Department of Immigration, Refugees and Citizenship Canada through a Pre-Removal Risk Assessment.</p>
<p>¹⁶ The 303,100 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.</p>
<p>¹⁷ The new statelessness figure is based on a 2019 mapping study jointly conducted by the Government and UNHCR.</p>
<p>¹⁸ UNHCR is currently working with the authorities and other actors to determine the size of the population that found an effective nationality solution under Law 169-14. Since the adoption of Law 169-14 in May 2014, important steps have been taken by the Dominican Republic to confirm Dominican nationality through the validation of birth certificates of individuals born in the country to two migrant parents before 2007. According to information shared by the Dominican delegation during the 2019 High-Level Segment on Statelessness, approximately 48 per cent of the total Group A population of 61,049 persons had been authorized by the National Electoral Board (JCE) to request their nationality documentation. Additionally, as of December 2019, over 1,700 Group B persons (900 of which were children) had submitted applications for naturalization to the Ministry of Interior and of the Police (MIP). However, no naturalization decisions concerning this population had been issued by June 2020.</p>
<p>¹⁹ Almost all people recorded as being stateless have permanent residence and enjoy more rights than foreseen in the 1954 Convention relating to the Status of Stateless Persons.</p>
<p>²⁰ There are indications that a potentially sizable population of non-displaced stateless persons exists for whom no data is available.</p>
<p>²¹ Pending a more accurate study into statelessness in Iraq, the figure is an estimate based on various sources.</p>
<p>²² Figures are UNHCR estimates. The numbers in annex 1 and 2 refer to end-2020, as data for mid-2021 was not available at time of publication.</p>
<p>²³ The refugee population in Jordan includes 34,350 Iraqis registered with UNHCR. The Government of Jordan estimated the number of Iraqis at 400,000 individuals at the end of March 2015. This includes refugees and other categories of Iraqis.</p>
<p>²⁴ With respect to persons under UNHCR’s statelessness mandate, this figure includes persons of concern covered by two separate Latvian laws. 160 persons fall under the Republic of Latvia’s Law on Stateless Persons on 17 February 2004. 209,007 of the persons fall under Latvia’s 25 April 1995 Law on the Status of those Former USSR Citizens who are not Citizens of Latvia or Any Other State (“Non-citizens”). In the specific context of Latvia, the “Non-citizens” enjoy the right to reside in Latvia ex lege and a set of rights and obligations generally beyond the rights prescribed by the 1954 Convention relating to the Status of Stateless Persons, including protection from removal, and as such the “Non-citizens” may currently be considered persons to whom the Convention does not apply in accordance with Article 1.2(ii).</p>
<p>²⁵ The numbers in annex 1 and 2 refer to end-2020 for refugees and Stateless people, as data for mid-2021 was not available at time of publication apart from the data on asylum-seekers, which was sourced from the month-by-month statistics published on the Government website: https://migracija.lrv.lt/lt/statistika/prieglobsacio-skyriaus-statistika/statistika-1/2021-metai</p>
<p>²⁶ The numbers in annex 1 and 2 refer to end-2020, as data for mid-2021 was not available at time of publication apart from the data on asylum-seekers, which was sourced from Eurostat.</p>
<p>²⁷ The total stateless population in Malaysia includes 9,040 non-displaced stateless persons who may be entitled to Malaysian nationality under the law. This number of non-displaced stateless persons is based on a registration and community legal assistance programme undertaken in West Malaysia by a local NGO with technical support from UNHCR.</p>
<p>²⁸ The estimated figure of persons of concern under the statelessness mandate relates to stateless persons of Rohingya ethnicity in Rakhine State and also includes stateless IDPs in Myanmar. The number of persons of undetermined nationality residing in other states or regions in Myanmar is not currently available. The number of stateless persons remaining in Rakhine State following violence in 2016 and 2017 and large scale departures to Bangladesh is based on detailed estimates for each village tract made by UNHCR, other UN agencies and NGOs in early 2018, which concluded that between 532,000 to 600,000 Rohingya remained in Rakhine State (including an estimated 140,886 of those Rohingya who have been internally displaced). For the purposes of this report, the higher range of this estimate has been used.</p>
<p>²⁹ Various studies estimate that a significant number of individuals originally from Nepal lack citizenship certificates. While these individuals originally from Nepal are not all necessarily stateless, UNHCR has been working closely with the Government of Nepal and partners to address this situation.</p>
<p>³⁰ The updated figure is based on improved information concerning persons of Indonesian descent who have acquired nationality.</p>

³¹ UNHCR is verifying the number of stateless persons with the Government of Saudi Arabia. Also, only those asylum-seekers facing acute or imminent protection risks are registered by UNHCR. In addition, there are some 8,300 other asylum-seekers who were individually assessed, counselled and advised to inform UNHCR of any changes in their situation, which would justify a decision to register them.

³² The numbers in annex 1 and 2 refer to end-2020, as data for mid-2021 was not available at time of publication.

³³ According to some reports many stateless persons have been naturalized since 2011, but no official figures are yet confirmed.

³⁴ The total statelessness figure includes 553,969 stateless persons reported by the Royal Thai Government and registered with the national civil registration system as of mid-2021.

³⁵ Refugee figure is a Government estimate.

³⁶ In the absence of official data, the figure reported refers to stateless persons and persons with undetermined nationality identified by UNHCR partner organizations in Turkmenistan. The decrease in the reporting figure is due to naturalization in Turkmenistan and confirmation of nationality by a third country.

³⁷ The IDP figure has been aligned to the inter-agency methodology as defined in the 2020 Humanitarian Needs Overview. Figure of others of concern relates to persons who have specific protection needs and live in non-government-controlled areas or within 20km of the contact line in government-controlled areas.

³⁸ UNHCR's global reporting standard for asylum statistics is for individual level data. To meet this standard, US Citizenship and Immigration Services (USCIS) shared the 2021 mid-year asylum data expressed in terms of individuals. Previously, USCIS provided data based on asylum "cases" and average family household size, which UNHCR used to estimate the total number of individual asylum applications before USCIS. The shift in 2021 to USCIS reporting of individuals (not cases) allows for more precise reporting, as well as more consistency across the U.S. asylum data, since the U.S. Executive Office for Immigration Review (EOIR) has already been reporting individual-level asylum statistics to UNHCR. UNHCR notes that the increase in the reported number of asylum applications filed with USCIS in 2021 primarily reflects this change in reporting modality.

³⁸ A study is being pursued to provide a revised estimate of the statelessness figure.

Annex X

Draft decision on budgets and funding for 2021 and 2022

The Standing Committee,

Recalling the Executive Committee's decisions, at its seventieth and seventy-first sessions on administrative, financial and programme matters (A/AC.96/1198, para. 13(c) and A/AC.96/1209, para. 12(b)), as well as its discussions under the programme budgets and funding item at the eighty-second meeting of the Standing Committee in September 2021,

Reaffirming the importance of greater responsibility-sharing in solidarity with countries hosting refugees,

Recalls that the Executive Committee, at its seventieth session, approved original programmes and budgets for regional programmes, global programmes and headquarters under UNHCR's 2020-2021 biennial programme budget, amounting to \$8,667.7 million and \$8,615.8 million for 2020 and 2021, respectively,

Recalls that the Executive Committee, at its seventy-first session, approved revised programmes and budgets for regional programmes, global programmes and headquarters under UNHCR's 2020-2021 biennial programme budget (revised), amounting to \$9,131.3 million and \$8,615.8 million for 2020 and 2021 respectively,

Notes that the final 2021 supplementary budgets amounted to \$631.7 million for programmes benefiting UNHCR's global refugee programme, and projects for internally displaced persons,

Takes note of the increase in UNHCR's annual budget for 2021 to a final total of \$9,247.6 million, representing the sum of the revised budget of \$8,615.8 million and the final supplementary budgets of \$631.7 million,

Recalls that the Executive Committee, at its seventy-second session in October 2021, approved original programmes and budgets for regional programmes, global programmes and headquarters under UNHCR's 2022 annual programme budget, amounting to \$8,993.7 million (A/AC.96/1220, para. 13 (d)),

Takes note of the increase in UNHCR's annual budget for 2022 at a current total of \$9,287.2 million as at 31 January 2022, representing the sum of the original budget of \$8,993.7 million and the supplementary budgets of \$293.5 million,

Recognizes that emergencies and unforeseen activities unfolding in 2022 may result in the need for additional or expanded supplementary budgets and that additional resources, over and above those for existing budgets, would be needed to meet such needs, and

Urges member States to continue to respond generously, in the spirit of solidarity and in a timely manner, to the High Commissioner's appeal for resources to meet in full the annual budget for 2022.
