Annex A. Sco	ne of Work for the	nrovision of	premises maintenance services.
AIIIICA A. SCO	pe or work for the	PI O VISIOII OI	premises manneemance services.

	BILL OF QUANTITIES PER LOT		
lo	Description of the work	Unit	Quantities
	CONSTRUCTION WORKS		
CODE	I. ROAD WORKS		
	Supply and install natural soil until it reach of 95% of compaction, The compilation (rating) of the soil should not go under	_	
ROD-010	(A6 or A7) and the CBR should not also go under 8% upon the instructions of the engineer on the site (according to the	m³	100
	Jordanian specifications).		
000 000	Excavation and levelling the ground, which includes all the cutting and filling, digging ,and improving the natural soil until it	3	100
ROD-020	reach of 95% of compaction upon the instructions of the engineer on the site(according to the Jordanian specifications).	m³	100
	L Supply and install of base course, transport to the site, spread and compact including mixing with water and the thickness		
ROD-030	not to be less than 20cm after compaction (according to the Jordanian codes). The base course has to pass the lab tests	m³	100
	(reports to be submitted).		
ROD-040	Supply and Appling of a face of M.C between (900-1000 KG) on each s.q m of base course including the single size at the	Ton	10
	top upon the instructions of the engineer on the site (according to the Jordanian specifications)		
	Complement Apple a bat will a sub-like year according of the thickness of Famous flag compaction of OCO/ year the instructions		
ROD-050	Supply and Apply a hot mixed asphalt wear course of the thickness of 5cm after compaction of 96%, upon the instructions of the engineer on the site (according to the Jordanian specifications).	m²	100
ROD-060	Supply and Apply 2 layers of seal coat, each layer will be covered with single size (limestone) as cover and then it will be	m²	30
	compacted.		
CODE	IL CURR STONE AND INTERLOCK THES		
CODE	II. CURB STONE AND INTERLOCK TILES Supply and install of concrete curb stones, including the filling joint with concrete between the curb stones and under the		
ROD-070	stones	m′	100
ROD-080		m³	100
	Supply and install interlock tiles of approved quality, including breaking and removing damaged parts and pointing the		
ROD-090	joints with sand/silica.	m²	60
CODE	III. CONCRETE WORKS		
CON-010	Supply and install concrete for the foundation, columns and beams, all shuttering works are included and to be fair faced.	m³	10
.OIN-010	F'c=150kg/cm3	111	10
CON-020	Supply and install concrete for the foundation, columns and beams, all shuttering works are included and to be fair faced.	m³	10
	F'c=210kg/cm3		
CON-030	Supply and install concrete for the foundation, columns and beams, all shuttering works are included and to be fair faced.	m³	10
	F'c=250kg/cm3		
CON-040	Supply and install concrete for the foundation, columns and beams, all shuttering works are included and to be fair faced. F'c=300kg/cm3	m³	10
	r c-sookg/ciiis		
CODE	IV. STEEL REINFORCEMENT WORKS		
	Supply and install steel reinforcement Ev-400 Mpa, steel hars size of 8mm including all workmanship required to properly		
CON-050	execute the work	Ton	3
	Supply and install steel reinforcement Fy=400 Mpa, steel bars size of 10,12mm including all workmanship required to	_	
CON-060	properly execute the work	Ton	3
ON-070	Supply and install steel reinforcement Fy=400 Mpa, steel bars size of 14,16 including all workmanship required to properly	Ton	3
.OIN-070	execute the work	1011	3
CODE	V. WALL ,CEILING & FLOOR WORKS		
	Supply all materials needed, labours to construct 10 cm thick hollow block .	m²	20
	Supply all materials needed, labours to construct 15 cm thick hollow block .	m²	10
UN-100	Supply all materials needed, labours to construct 20 cm thick hollow block.	m²	30
CON-110	Opening existing wall made of concrete blocks and/or gypsy board for the installation of new single or double door(s) or window with reinforced lintel in concrete or H beam.	m²	10
CON-120	Construct partition wall made of EPS Cement panel deferent thickness, with plastering finish ready for painting.	m²	50
O112170	Construct partition wan made of the Cement paner deferent thickness, with plastering ministready for painting.	1/1	30
CON-130	Supply and apply materials to execute wall plastering (rough coat and then soft coat) and repairing all the breaking and	m²	50
23.1 130	removing cracked or old plaster where needed and with all what is needed to complete the work from steel mesh .etc	171	30
ON-140	Provide and install gypsum board tiles false ceiling, of approved quality to match the existing, of size 60x60cm to replace	m²	60
	damaged parts and to match the existing at corridors and offices, including reinforcing the steel frames where needed.		

CON-150 Provided and install gaptum board partition (with different sizes - Bin. 1 Farm), including rendroung the steel renders where partitions of the control of the steel rendroung the				11

AC- 040 Supply RE 410 or R32 or other Gas re-fill of approved quality for 2.5 ton A/C	pcs	10
AC- 050 Supply RE 410 or R32 or other Gas re-fill of approved quality for 4 ton stand A/C	pcs	5
AC- 060 Supply RE 410 or R32 or other Gas re-fill of approved quality for 5 ton stand central HVAC system A/C	pcs	2
AC- 070 Supply and install copper pipes for 0,75 Ton A/Cs. Price must include insulation	m′	20
AC- 080 Supply and install copper pipes for 1 Ton A/Cs. Price must include insulation	m′	20
AC- 090 Supply and install copper pipes for 1.5 Ton A/Cs. Price must include insulation	m′	20
AC- 100 Supply and install copper pipes for 2 Ton A/Cs. Price must include insulation	m′	20
AC- 110 Supply and install copper pipes for 2.5 Ton A/Cs. Price must include insulation	m′	20
AC- 120 Supply and install copper pipes for 4 Ton A/Cs. Price must include insulation	m′	10
AC- 130 Supply and install External unit's fan for 0,75 Ton A/Cs for either Gree or Union Air Brand.	pcs	1
AC- 140 Supply and install External unit's fan for 1 Ton A/Cs for either Gree or Union Air Brand.	pcs	1
AC- 150 Supply and install External unit's fan for 1.5 Ton A/Cs for either Gree or Union Air Brand.	pcs	1
AC- 160 Supply and install External unit's fan for 2 Ton A/Cs for either Gree or Union Air Brand.	pcs	2
AC- 170 Supply and install External unit's fan for 2.5 Ton A/Cs for either Gree or Union Air Brand.	pcs	2
AC- 180 Supply and install External unit's fan for 4 Ton A/Cs for either Gree or Union Air Brand.	pcs	2
AC- 190 Supply and install External unit's fan for 5 Ton HVAC central A/Cs for either Petra or equivalent quality.	pcs	1
AC- 200 Supply and install internal unit's fan for 0,75 Ton A/Cs for either Gree or Union Air Brand.	pcs	2
AC- 210 Supply and install internal unit's fan for 1 Ton A/Cs for either Gree or Union Air Brand.	pcs	2
AC- 220 Supply and install internal unit's fan for 1.5 Ton A/Cs for either Gree or Union Air Brand.	pcs	2
AC- 230 Supply and install internal unit's fan for 2 Ton A/Cs for either Gree or Union Air Brand.	pcs	2
AC- 240 Supply and install internal unit's fan for 2.5 Ton A/Cs for either Gree or Union Air Brand.	pcs	2
AC- 250 Supply and install internal unit's fan for 4 Ton A/Cs for either Gree or Union Air Brand.	pcs	2
AC- 260 Supply and install internal unit's fan for 5 Ton HVAC central A/Cs for Petra or equivalent approved .	pcs	1
AC- 270 Supply and install compressor's Condenser for 0,75 Ton A/C 35 KVR of approved quality.	pcs	2
AC- 280 Supply and install compressor's Condenser for 1 Ton A/C 35 KVR of approved quality.	pcs	2
AC- 290 Supply and install compressor's Condenser 1.5 Ton A/C 50 KVR of approved quality.	pcs	2
AC- 300 Supply and install compressor's Condenser 2 Ton A/C 60 KVR of approved quality.	pcs	2
AC- 310 Supply and install compressor's Condenser 2.5 Ton A/C 60 KVR of approved quality.	pcs	2
AC- 320 Supply and install compressor's Condenser 4 Ton A/C of approved quality.	pcs	1
AC- 330 Supply and install compressor's Condenser 5 Ton HVAC central A/C of approved quality.	pcs	1
AC- 340 Supply and install Reverse valve for 0,75 Ton A/Cs of approved quality.	pcs	1
AC- 350 Supply and install Reverse valve for 1 Ton A/Cs of approved quality.	pcs	1
AC- 360 Supply and install Reverse valve for 1.5 Ton A/Cs of approved quality.	pcs	1
AC- 370 Supply and install Reverse valve for 2 Ton A/Cs of approved quality.	pcs	1
AC- 380 Supply and install Reverse valve for 2.5 Ton A/Cs of approved quality.	pcs	1
AC- 390 Supply and install Reverse valve for 4 Ton A/Cs of approved quality.	pcs	1
AC- 400 Supply and install Reverse valve for 5 Ton A/Cs of approved quality.	pcs	1
AC- 410 Supply and install Coil sensor for 0,75 Ton A/Cs of approved quality.	pcs	1
AC- 420 Supply and install Coil sensor for 1 Ton A/Cs of approved quality.	pcs	1
AC- 430 Supply and install Coil sensor for 1.5 Ton A/Cs of approved quality.	pcs	1
AC- 440 Supply and install Coil sensor for 2 Ton A/Cs of approved quality	pcs	1
AC- 440 Supply and install Coil sensor for 2 for A/Cs of approved quality AC- 450 Supply and install Coil sensor for 2.5 Ton A/Cs of approved quality.	 	1
AC- 460 Supply and install Coil sensor for 4 Ton A/Cs of approved quality.	pcs	1
AC- 470 Supply and install Coil sensor for 4 Ton A/Cs of approved quality. AC- 470 Supply and install Coil sensor for 5 Ton HVAC central A/Cs of approved quality.	pcs	
AC- 470 Supply and install Room sensor for 0,75 Ton A/Cs of approved quality. AC- 480 Supply and install Room sensor for 0,75 Ton A/Cs of approved quality.	pcs	1
AC- 480 Supply and install Room sensor for 1 Ton A/Cs of approved quality. AC- 490 Supply and install Room sensor for 1 Ton A/Cs of approved quality.	pcs	1
AC- 490 Supply and install Room sensor for 1.5 Ton A/Cs of approved quality. AC- 500 Supply and install Room sensor for 1.5 Ton A/Cs of approved quality.	pcs	1
	pcs	
AC- 510 Supply and install Room sensor for 2 Ton A/Cs of approved quality. AC- 520 Supply and install Room sensor for 2.5 Ton A/Cs of approved quality.	pcs	1
	pcs	1
AC- 530 Supply and install Room sensor for 4 Ton A/Cs of approved quality.	pcs	1
AC- 540 Supply and install Room sensor for 5 Ton HVAC central A/Cs of approved quality.	pcs	1
AC- 550 Supply and install good quality new filters to be installed on the 1 Ton, 1.5 Tons and 2 Tons, 2.5 ton, 4 Tons & 5 Tons A/Cs.	pcs	5
AC- 560 Supply and install Compressor for 0,75 Ton A/Cs of approved quality., including all accessories, filler foam, copper welding if needed, and any other needed works.	pcs	2

AC- 570	Supply and install Compressor for 1 Ton A/Cs of approved quality, including all accessories, filler foam, copper welding if needed, and any other needed works.	pcs	2
AC- 580	Supply and install Compressor for 1.5 Ton A/Cs of approved quality made or equivalent quality, including all accessories, filler foam, copper welding if needed, and any other needed works.	pcs	1
AC- 590	Supply and install Compressor for 2 Ton A/Cs of approved quality, including all accessories, filler foam, copper welding if needed, and any other needed works.	pcs	1
AC- 600	Supply and install Compressor for 4 Ton A/Cs of approved quality, including all accessories, filler foam, copper welding if needed, and any other needed works.	pcs	1
AC- 610	Supply and install Compressor for 5 Ton HVAC central A/Cs of approved quality, including all accessories, filler foam, copper welding if needed, and any other needed works.	pcs	2
AC- 620	Supply and install external unit fan's motor for 0,75 ton of approved quality.	pcs	1
	Supply and install external unit fan's motor for 1 ton of approved quality.	pcs	1
	Supply and install external unit fan's motor for 1.5 ton of approved quality.	pcs	1
AC- 650	11 /	pcs	1
	Supply and install external unit fan's motor for 2.5 ton of approved quality.	pcs	1
	Supply and install external unit fan's motor for 4 ton of approved quality.	pcs	1
AC- 680		pcs	2
AC- 690			25
AC- 050	Clearing external units of Acs.	pcs	23
AC- 700	Supply and install 0,75 ton inverter A/C (Samsung or equivalent of approved quality). Price must including filling up with gas is RE 410 or R32 or as request and cooper pipes of 5 m, copper insulation, foam filler, and any other accessories.	pcs	2
AC- 710	Supply and install 1 ton inverter A/C (Samsung or equivalent of approved quality). Price must including filling up with gas is RE 410 or R32 or as request and cooper pipes of 5 m, copper insulation, foam filler, and any other accessories.	pcs	2
AC- 720	Supply and install 1.5 ton inverter A/C (Samsung or equivalent of approved quality). Price must including filling up with gas is RE 410 or R32 or as request and cooper pipes of 5 m, copper insulation, foam filler, and any other accessories.	pcs	2
AC- 730	Supply and install 2 ton inverter A/C (Samsung or equivalent of approved quality). Price must including filling up with gas is RE 410 or R32 or as request and cooper pipes of 5 m, copper insulation, foam filler, and any other accessories.	pcs	2
AC- 740	Supply and install 4 ton inverter stand A/C- 3 phase (Samsung or equivalent of approved quality). Price must including filling up with gas is RE 410 or R32 or as request and cooper pipes of 5 m, copper insulation, foam filler, and any other accessories.	pcs	1
AC- 750	Supply and install automatic timer in the SMDB to switch on or off the A/Cs, for server rooms or others.	pcs	1
AC- 760	Supply and install digital 365 days timer to switch on or off the electric water heaters, and or Exhaust fans in toilets including all wiring and associated accessories.	pcs	5
AC- 770	Supply and install motion detection control for the lights, Legrand or similar approved, including all wiring and associated accessories.	pcs	2
AC- 780	Supply and install Occupancy sensors PIR control for the lights and/or ACs, Legrand or similar approved, including all wiring and associated accessories.	pcs	250
AC- 790	Supply and install Limit switches for windows to control the ACs, if window is opened the AC will be turned off, including all wiring and associated accessories.	pcs	300
