Notes

The data are generally provided by Governments, based on their own definitions and methods of data collection.

A dash (-) indicates that the value is zero, not available or not applicable.

- Country or territory of asylum or residence.
- Persons recognized as refugees under the 1951 UN Convention/1967 Protocol, the 1969 OAU Convention, in accordance with the UNHCR Statute, persons granted a complementary form of protection and those granted temporary protection. In the absence of Government figures, UNHCR has estimated the refugee population in 24 industrialized countries based on 10 years of individual refugee recognition.
- This category is descriptive in nature and includes groups of persons who are outside their country or territory of origin and who face protection risks similar to those of refugees, but for whom refugee status has, for practical or other reasons, not been ascertained.
- Persons whose application for asylum or refugee status is pending at any stage in the asylum procedure.
- Refugees who have returned to their place of origin during the calendar year. Source: Country of origin and asylum.
- Persons who are displaced within their country and to whom UNHCR extends protection and/or assistance. It also includes people in IDP-like situations. This category is descriptive in nature and includes groups of persons who are inside their country of nationality or habitual residence and who face protection risks similar to those of IDPs but who, for practical or other reasons, could not be reported as such.
- IDPs protected/assisted by UNHCR who have returned to their place of origin during the calendar year.
- Refers to persons who are not considered nationals by any State under the operation of its laws. See annex Table 7 for footnotes.
- Refers to individuals who do not necessarily fall directly into any of the other groups but to whom UNHCR may extend its protection and/or assistance services. These activities might be based on humanitarian or other special grounds.
- According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.
- The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.
- IDP figure in Georgia includes 124,000 people who are in an IDP-like situation.
- Refugee figures for Iraqis in Jordan and the Syrian Arab Republic are Government estimates.
- IDP figure in Kyrgyzstan includes 20,000 people who are in an IDP-like situation.
- According to UNHCR, and based on lists provided by refugee communities in Malaysia, there are 10,000 unregistered asylum-seekers in Malaysia who share the same profile as the current population of asylum-seekers and refugees and who are being progressively registered and having their refugee status determined.
- Refugee population: This is an estimated number of Afghan refugees registered with the Government of Pakistan, and is subject to change after completion of the verification exercise ongoing at the time of reporting. Returned IDPs: This figure includes spontaneous returns in 2009 that could only be verified in 2010.
- IDP figure in the Russian Federation includes 22,200 people who are in an IDP-like situation.
- Asylum-seekers (pending cases) refers to an estimated 171,700 undecided cases at first instance at the end of 2009 (no update available).
- IDP figure in Sudan includes 76,100 people who are in an IDP-like situation.
- Figures for stateless persons are based on ongoing discussions between the Thai authorities and UNHCR and will be further verified in the course of the year.
- The IDP figure at the end of 2010 represents the remaining IDP population in camps, former camps, settlements and transit sites. They remain of concern to UNHCR together with the 303,000 who have already returned to their villages.
- This number does not include asylum claims pending before the United States Executive Office for Immigration Review.

Notes

The data are generally provided by Governments, based on their own definitions and methods of data collection.

A dash (-) indicates that the value is zero, not available or not applicable.

- 1 Country or territory of origin.
- 2 Persons recognized as refugees under the 1951 UN Convention/1967 Protocol, the 1969 OAU Convention, in accordance with the UNHCR Statute, persons granted a complementary form of protection and those granted temporary protection. In the absence of Government estimates, UNHCR has estimated the refugee population in 24 industrialized countries based on 10 years of individual refugee recognition.
- 3 This category is descriptive in nature and includes groups of persons who are outside their country or territory of origin and who face protection risks similar to those of refugees, but for whom refugee status has, for practical or other reasons, not been ascertained.
- 4 Persons whose application for asylum or refugee status is pending at any stage in the asylum procedure.
- 5 Refugees who have returned to their place of origin during the calendar year. Source: Country of origin and asylum.
- 6 Persons who are displaced within their country and to whom UNHCR extends protection and/or assistance. It also includes people in IDP-like situations. This category is descriptive in nature and includes groups of persons who are inside their country of nationality or habitual residence and who face protection risks similar to those of IDPs but who, for practical or other reasons, could not be reported as such.
- 7 IDPs protected/assisted by UNHCR who have returned to their place of origin during the calendar year.
- 8 Refers to persons who are not considered nationals by any State under the operation of its laws. See annex Table 7 for footnotes.
- 9 Refers to individuals who do not necessarily fall directly into any of the other groups but to whom UNHCR may extend its protection and/or assistance services. These activities might be based on humanitarian or other special grounds.
- 10 IDP figure in Georgia includes 124,000 people who are in an IDP-like situation.
- 11 Refugee figures for Iraqis in Jordan and the Syrian Arab Republic are Government estimates.
- 12 IDP figure in Kyrgyzstan includes 20,000 people who are in an IDP-like situation.
- 13 The figure for returned IDPs includes spontaneous returns in 2009 that could only be verified in 2010.
- 14 Refers to Palestinian refugees under the UNHCR mandate only.
- 15 IDP figure in the Russian Federation includes 22,200 people who are in an IDP-like situation.
- 16 IDP figure in Sudan includes 76,100 people who are in an IDP-like situation.
- 17 The IDP figure at the end of 2010 represents the remaining IDP population in camps, former camps, settlements and transit sites. They remain of concern to UNHCR together with the 303,000 who have already returned to their villages.
- 18 The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.
- 19 According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

TABLE 3 Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by country/territory of asylum | 2010

N.B. For 24 industrialized countries, UNHCR has estimated the refugee population based on 10 years of individual refugee recognition. The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2010 does not equal the population at the start of 2010 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown. Voluntary repatriation* shows a best estimate, based on country of asylum and country of origin reports.

Country/ territory of asylum	Population start-2010		Major increases		Major decreases during 2010						Population end-2010	
	Total	of whom: UNHCR assisted	Spont. arrivals		Voluntary repatriation*		Resettlement		Cessation	Natura- lization	Total	of whom: UNHCR assisted

TABLE 3 **Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by country/territory of asylum | 2010 (ctnd)**

N.B. For 24 industrialized countries, UNHCR has estimated the refugee population based on 10 years of individual refugee recognition.

The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2010 does not equal the population at the start of 2010 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

Voluntary repatriation* shows a best estimate, based on country of asylum and country of origin reports.

Country/ territory of asylum	Population start-2010		Major increases		Major decreases during 2010						Population end-2010

Notes

- 1 According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.
- 2 The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.

TABLE 4 **Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by country/territory of origin | 2010 (ctnd)**

N.B. For 24 industrialized countries, UNHCR has estimated the refugee population based on 10 years of individual refugee recognition.

The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2010 does not equal the population at the start of 2010 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

Voluntary repatriation* shows a best estimate, based on country of asylum and country of origin reports.

Origin	Population start-2010		Major increases		Major decreases during 2010						Population end-2010	
	Total	of whom: UNHCR assisted	Spont. arrivals		Voluntary repatriation*		Resettlement		Cessation	Natura- lization	Total	of whom: UNHCR assisted

Notes

¹ The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.

² According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

TABLE 5 **Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by origin and country of asylum | 2010**

The refugee population is included in this table if the number was 5,000 or more at the end of 2010.

N.B. For 24 industrialized countries, UNHCR has estimated the refugee population based on 10 years of asylum-seeker recognition.

The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2010 does not equal the population at the start of 2010 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

Voluntary repatriation* shows a best estimate, based on country of asylum and country of origin reports. Figures between 1 and 4 have been replaced with an asterisk (*).

Origin	Country/ territory of asylum	Population start-2010		Major increases		Major decreases during 2010						Population end-2010

TABLE 5 **Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by origin and country of asylum | 2010 (ctnd)**

The refugee population is included in this table if the number was 5,000 or more at the end of 2010.

N.B. For 24 industrialized countries, UNHCR has estimated the refugee population based on 10 years of asylum-seeker recognition.

The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2010 does not equal the population at the start of 2010 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

Voluntary repatriation* shows a best estimate, based on country of asylum and country of origin reports. Figures between 1 and 4 have been replaced with an asterisk (*).

Origin	Country/ territory of asylum	Population start-2010		Major increases		Major decreases during 2010						Population end-2010

Notes

1 Refers to Government estimates.

2 Refers to Palestinians under the UNHCR mandate only.

3 The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.

4 According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

TABLE 6 Internally displaced persons (IDPs) protected/assisted by UNHCR | 2010
This table also includes people in IDP-like situations.

This table reflects only IDPs who are protected/assisted by UNHCR. These are also not necessarily representative of the entire IDP population in a given country. Many of the world's IDP situations are not covered by UNHCR and are thus not reflected. For global IDP estimates, visit the Internal Displacement Monitoring Centre at www.internal-displacement.org.

Most IDP figures are rough estimates and rounded to the nearest hundredth.

Country	Population start-2010 Total *	Population end-2010 Total
Afghanistan	297,100	351,900
Azerbaijan	586,000	592,900

Total	5,490,200	14,697,900

Notes

* Includes revised estimates.

¹ Refers to people in IDP-like situations from Abkhazia and South Ossetia.

² The IDP figure at the end of 2010 represents the remaining IDP population in camps and transit sites. They remain of concern to UNHCR together with the 303,000 who have already returned to their villages.

TABLE 7 Stateless persons¹ | 2010

N.B. Stateless refugees are included in Table 3 and stateless asylum-seekers in Table 12.

Data is not complete and includes estimates. Countries for which UNHCR has information about stateless persons but no reliable data have been included in the table and marked with an asterisk (*).

Notes

- This category covers de jure and de facto stateless persons, including persons who are unable to establish their nationality.
- The great majority of these people have yet to have their Bosnian nationality formally recognized.
- The figure may drop due to the ongoing Government programme of expediting the granting of citizenship to stateless permanent residents in Brunei.
- Almost all people recorded as being stateless have permanent residence and enjoy more rights than foreseen in the 1954 Convention relating to the Status of Stateless Persons.
- The figure does not represent the entire number of persons registered as stateless in the German Central Aliens Register. The number of stateless persons holding a humanitarian residence title (not all of whom are persons of concern to UNHCR) and the number of stateless asylum-seekers have been deducted from it.
- Includes people deprived of their citizenship under previous nationality legislation, stateless individuals with permanent residence who are recognized as "stateless foreigners" and other stateless persons resident in Greece.
- Estimate provided by the central Government of Iraq.
- Figure refers to the end of 2009; no data available for 2010.
- The figure of 20,000 is an estimate by UNHCR and civil society organizations based on currently available information on several communities in Kenya. This estimate is under review pending further research and mapping activities.
- The Republic of Latvia enacted a Law on Stateless Persons on 17 February 2004, which replaced the Law on the Status of Stateless Persons in the Republic of Latvia of 18 February 1999, and which determines the legal status of persons who are not considered as citizens by the legislation of any State and whose status is not determined by the 25th April 1995 Law (quoted below).
- The Republic of Latvia, by the 25th April 1995 Law on the Status of Those Former USSR Citizens who are not Citizens of Latvia or of Any Other State, granted a transitional legal status to permanently residing persons (non-citizens) entitling them to a set of rights and obligations beyond the minimum rights prescribed by the 1954 Convention relating to the Status of Stateless Persons.
- Figure includes one individual from the Czech Republic and an estimated number of individuals who are stateless, including people who are unable to establish their nationality from among the Indian community (Tamils). Estimate is based on NGO and media reports, some citing official sources.
- The great majority of these people have yet to have their Montenegrin nationality formally recognized.
- Muslim residents of northern Rakhine State.
- The figure of 800,000 is an estimate of individuals who lack citizenship certificates in Nepal; the exact number is currently unknown. In 1995, the Government of Nepal sponsored the Dhanapati Commission, which concluded that approximately 3.4 million Nepalis lack citizenship certificates. A Government-initiated task force then distributed 2.6 million certificates in 2007. The estimate of 800,000 was arrived at by deducting 2.6 million (number of certificates issued) from the original estimated figure of 3.4 million.
- UNHCR estimate provided in the absence of comprehensive Government statistics on the number of stateless persons in the Russian Federation. It includes 16,998 stateless persons registered with the Russian Federal Migration Service. According to figures from the Russian Federal Migration Service, 19,000 stateless persons were granted Russian citizenship in 2010 and a total of about 600,000 stateless persons were granted citizenship between 2003 and 2009.
- The figure is based on data from a survey conducted by UNHCR in 2010. The great majority of the persons reported have yet to have their Serbian nationality formally recognized.
- Figures are based on estimates from Amnesty International and Human Rights Watch.
- The figure is based on data from the last population census in Tajikistan in 2000 and includes 326 persons officially registered by the Government of Tajikistan as being stateless.
- The numbers are based on ongoing discussions between the Thai authorities and UNHCR and will be further verified in the course of the year.
- The great majority of this population are either people who are yet to have their nationality of The former Yugoslav Republic of Macedonia formally recognized, or as well as long term habitual residents without effective citizenship.
- The figure is based on an extrapolation from the number of stateless persons registered in the 2001 census in Ukraine. It includes 6,412 persons who were registered with the Ukrainian Ministry of Interior in 2010.
- Figure refers to the end of 2005; no data available for subsequent years.

TABLE 8 Others of concern to UNHCR | 2010

N.B. This table does not include stateless persons or people in a refugee-like or IDP-like situations.

TABLE 9 Asylum applications and refugee status determination by country/territory of asylum | 2010

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow for monitoring of the number of decisions taken, but they are not indicative of the final outcome of the procedure for negative decisions. For information on recognition rates, see Table 10.

Country/ territory of asylum	Pending start-2010		Applied during 2010	Decisions during 2010					Pending end-2010		Protection indic. ¹

TABLE 9 Asylum applications and refugee status determination by country/territory of asylum | 2010 (ctnd)

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow for monitoring of the number of decisions taken, but they are not indicative of the final outcome of the procedure for negative decisions. For information on recognition rates, see Table 10.

Notes

A dash ("-") indicates that the value is zero or not available.

* Data refers to number of cases or mix of persons and cases.

1 Protection indicators (calculated by UNHCR):
Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.
Change in pending cases: Cases pending as at 31 December 2010 minus Cases pending as at 1 January 2010 divided by Cases pending as at 1 January 2010 * 100%.

2 Statistics provided by the Government of Australia on the first instance asylum procedure are based on the number of applications for protection visas lodged in 2010, not asylum applications.

3 According to UNHCR, and based on lists provided by refugee communities in Malaysia, there are 10,000 unregistered asylum-seekers in Malaysia who share the same profile as the current population of asylum-seekers and refugees and who are being progressively registered and having their refugee status determined.

4 Pending cases refers to 171,700 undecided cases at first instance at the end of 2009 (no update available).

5 This number does not include asylum claims pending before the United States Executive Office for Immigration Review.

Notes

A dash ("-") indicates that the value is zero or not available.

- 1 Protection indicators (calculated by UNHCR):
 Refugee status recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.
 Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.
 Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.
 Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.
 - 2 Australia: Statistics provided by the Government of Australia on the first instance asylum procedure are based on the number of applications for protection visas lodged in 2010, not asylum applications.
 - 3 Malaysia: According to UNHCR, and based on lists provided by refugee communities in Malaysia, there are 10,000 unregistered asylum-seekers in Malaysia which share the same profile as the current population of asylum-seekers and refugees and who are being progressively registered and having their refugee status determined.
 - 4 South Africa: Pending cases refers to 171,700 undecided cases at first instance at the end of 2009 (no update available).
 - 5 Switzerland (FI): Complementary protection refers to the year when it enters into force even though it might have been granted earlier.
 - 6 UK figures at first instance are rounded to the closest five.
 - 7 This number does not include asylum claims pending before the United States Executive Office for Immigration Review.
- * T=Type: G=Government; U=UNHCR; J=Government and UNHCR jointly.
 ** L=Level: NA=New Applications; FI=First instance decisions; AR=Administrative Review decisions; RA=Repeat/reopened applications; IN=US Citizenship and Immigration Services; EO=US Executive Office of Immigration Review; JR=Judicial Review; SP=Subsidiary protection; BL=backlog procedure; FA=First instance and appeal; TP=Temporary protection.
 *** Data refers to number of cases (C) or persons (P): App. = Applications; Dec. = Decisions taken during the year.

Notes

A dash ("-") indicates that the value is zero or not available.

¹ Protection indicators (calculated by UNHCR):

Refugee status recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December 2010 minus Cases pending as at 1 January 2010 divided by Cases pending as at 1 January 2010 * 100%.

TABLE 12 Asylum applications and refugee status determination by origin and country/territory of asylum | 2010

N.B. The origin is included if the total number of applications submitted during 2010 was 100 or more. Values between 1 and 4 have been replaced with an asterisk (*). See Table 10 regarding reporting of persons or cases.

Notes

A dash ("-") indicates that the value is zero or not available.

¹ Protection indicators (calculated by UNHCR):

Refugee status recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December 2010 minus Cases pending as at 1 January 2010 divided by Cases pending as at 1 January 2010 * 100%.

² T=Type: G=Government; U=UNHCR; J=Government and UNHCR jointly.

³ L=Level: NA=New Applications; FI=First instance decisions; AR=Administrative Review decisions; RA=Repeat/reopened applications; IN=US Citizenship and Immigration Services; EO=US Executive Office of Immigration Review; JR=Judicial Review; SP=Subsidiary protection; BL=backlog procedure; FA=First instance and appeal; TP=Temporary protection.

⁴ Australia (first instance): Statistics provided by the Government of Australia are based on the number of applications for protection visas lodged in 2010, not asylum applications.

⁵ Switzerland (first instance): Complementary protection refers to the year when it enters into force even though it might have been granted earlier.

⁶ UK figures are rounded to the closest five at the request of the Government.

TABLE 13 Demographic composition of populations of concern to UNHCR | end-2010

* Indicates the proportion of the population of concern in the country for which the demographic data are available. If the coverage is low (i.e. below 20%), the percentages may not be representative for the total population of concern in the country. Important note: The population for which demographic data is available does not necessarily equal the total pop. of concern in the country. See notes in Table 1.

Country/territory of asylum/residence	Population for which demographic data is available	Demographic indicators														Population of concern to UNHCR end-2010	Coverage*

TABLE 13 Demographic composition of populations of concern to UNHCR | end-2010 (ctnd)

* Indicates the proportion of the population of concern in the country for which the demographic data are available. If the coverage is low (i.e. below 20%), the percentages may not be representative for the total population of concern in the country. Important note: The population for which demographic data is available does not necessarily equal the total pop. of concern in the country. See notes in Table 1.

Notes

1 According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

TABLE 14 Demographic composition of refugees and people in refugee-like situations | end-2010

* Indicates the proportion of refugees and people in a refugee-like situation in the country for which the demographic data are available.

Important note:

The number of refugees and people in refugee-like situation for which demographic data is available does not necessarily equal the total refugee population in the country.

TABLE 14 Demographic composition of refugees and people in refugee-like situations | end-2010 (ctnd)

* Indicates the proportion of refugees and people in a refugee-like situation in the country for which the demographic data are available.

Important note:

The number of refugees and people in refugee-like situation for which demographic data is available does not necessarily equal the total refugee population in the country.

TABLE 14 Demographic composition of refugees and people in refugee-like situations | end-2010 (ctnd)

* Indicates the proportion of refugees and people in a refugee-like situation in the country for which the demographic data are available.

Important note:

The number of refugees and people in refugee-like situation for which demographic data is available does not necessarily equal the total refugee population in the country.

Country/territory of asylum/residence	Refugees for which demographic data is available	Demographic indicators														Refugee and people in refugee-like situation end-2010	Coverage*

Notes

- 1 According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.
- 2 The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.
- 3 Government estimates.

TABLE 15 Major locations and demographic composition of populations of concern to UNHCR | end-2010

* Type of location: U=Urban; R=Rural/Dispersed; V=Various/Unknown.

** Indicates the proportion of the population of concern in urban or rural locations for which the demographic characteristics are available.

Important note:

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

TABLE 15 Major locations and demographic composition of populations of concern to UNHCR | end-2010 (ctnd)

* Type of location: U=Urban; R=Rural/Dispersed; V=Various/Unknown.

** Indicates the proportion of the population of concern in urban or rural locations for which the demographic characteristics are available.

Important note:

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

TABLE 15 Major locations and demographic composition of populations of concern to UNHCR | end-2010 (ctnd)

* Type of location: U=Urban; R=Rural/Dispersed; V=Various/Unknown.

** Indicates the proportion of the population of concern in urban or rural locations for which the demographic characteristics are available.

Important note:

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

TABLE 15 Major locations and demographic composition of populations of concern to UNHCR | end-2010 (ctnd)

* Type of location: U=Urban; R=Rural/Dispersed; V=Various/Unknown.

** Indicates the proportion of the population of concern in urban or rural locations for which the demographic characteristics are available.

Important note:

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

TABLE 15 Major locations and demographic composition of populations of concern to UNHCR | end-2010 (ctnd)

* Type of location: U=Urban; R=Rural/Dispersed; V=Various/Unknown.

** Indicates the proportion of the population of concern in urban or rural locations for which the demographic characteristics are available.

Important note:

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

Country/ territory of asylum/ residence	Type of location ¹	Type of accomo- dation	Name of location	Popula- tion of concern to UN- HCR at location, end-2010	Demographic indicators														Total popu- lation at location, end-2010	Coverage [*]

Notes

- 1 Since 2007, people in refugee-like situations are included in the refugee estimates. Figures as from 2007 are not fully comparable with previous years.
- 2 Since 2007, people in IDP-like situations are included in the IDP estimates. IDP figures since 2007 are not fully comparable with previous years.
- 3 Stateless persons were included in the category "Others of concern" until 2003.
