Standing Committee 80th meeting

Update on budgets and funding (2020-2021)

Summary

In October 2019, at its seventieth session, the Executive Committee approved an original annual budget of \$8,667.7 million for 2020 and \$8,615.8 million for 2021.

During the course of 2020, two supplementary budgets amounting to a combined total of \$463.7 million were established, in support of activities to protect refugees and other persons of concern from the impact of the new coronavirus disease (COVID-19) pandemic (\$404 million) and in support of the refugee and displacement crisis in the central Sahel region (\$59.7 million), resulting in a final budget of \$9,131.3 million as of 31 December 2020.

In respect to the 2021 budget, in December 2020 two supplementary budgets were established amounting to a total of \$536.4 million: \$454.8 million to support the needs related to the exceptional socioeconomic and protection impact of COVID-19 and critical health, water, sanitation and hygiene (WASH) and shelter needs that could not be mainstreamed into the 2021 Global Appeal; and \$81.6 million for the Ethiopia situation. These supplementary budgets bring the total current budget for 2021 to \$9,152.3 as of January 2021.

As at January 2021, pending the annual closure of the accounts for 2020, the provisional total funds available for 2020 amount to \$5,288.7 million. Provisional expenditure stands at \$4,833.7 million. When comparing the final annual budget for 2020 to the provisional funds available, the funding gap amounts to \$3,842.7 million, or 42 per cent.

A draft decision on budgets and funding for 2020 and 2021 is provided in annex X.

I. Introduction

1. This document provides performance information on the 2020 budget.¹ As the closure of accounts has not yet been completed, all year-end figures for 2020 are provisional. This document also provides an overview of the estimated requirements for 2021 as at 31 January 2021.

- The 2020 original and final annual budget and provisional expenditure are summarized in annex I.
- Annexes II(a) and II(b) show transfers from the operational reserve for 2020 and 2021, respectively.
- Annex III provides the list of transfers from the "new or additional activities mandate-related" reserve for 2020. There were no transfers in 2021.
- Annexes IV(a) and IV(b) provide an overview of the supplementary budgets by situation, as well as region and subregion, for 2020 and 2021.
- Annex V shows overall contributions recorded for 2020.
- Annex VI gives a breakdown by country of 2020 contributions from non-governmental organizations, foundations, and private donors.
- Annex VII provides the list of unearmarked and softly earmarked voluntary contributions in 2020.
- Annex VIII shows the revised and current annual budgets for 2021 as at 31 January 2021.
- Annex IX shows the latest provisional (mid-2020) statistics for populations of concern to UNHCR.
- Annex X provides the draft decision on budgets and funding for 2020-2021.

2. The final annual budget, funding and expenditure figures for 2020, which will be available following the closure of accounts on 31 March 2021, will be reported at the eighty-first meeting of the Standing Committee in July 2021.

II. Budgets and funding for 2020

Total budget

3. In October 2019, at its seventieth session, the Executive Committee approved an original annual budget of \$8,667.7 for 2020 and \$8,615.8 million for 2021.² In October 2020, at its seventy-first session, the Executive Committee approved the revised annual budget of \$9,131.3 million for 2020 and the same level of \$8,615.8 for 2021.³ The final 2020 budget of \$9,131.3 million represents the sum of the approved original budget of \$8,667.7 million and the final supplementary budgets of \$463.7 million established by the High Commissioner in the course of 2020 in accordance with article 7.5 of the UNHCR financial rules and regulations. Details of the final 2020 budget are provided in annex I.

Supplementary budgets

4. At the seventy-ninth meeting of the Standing Committee in September 2020, UNHCR reported two supplementary budgets established in 2020 totalling \$463.7 million as at 31 July 2020. These amounts have not been revised since. An overview of supplementary budgets by situation is provided in table II.1 below. A breakdown of the 2020 supplementary budgets by situation, region and pillar is shown in annex IV(a).

^{1.} Figures are presented in millions of United States dollars. The totals in this document may not add up due to rounding.

^{3.} See A/AC.96/1202

Preliminary programme assessment including COVID-19

5. The year 2020 was marked by the outbreak of the COVID-19 pandemic. It exacerbated humanitarian crises and required UNHCR to reorient its programme of work. The focus of COVID-19-related assistance aimed at reducing the pandemic's impact on livelihood activities, food security, housing, education and protection, including of children, women, and girls. UNHCR adopted a 'stay and deliver' approach, deploying business continuity measures for essential protection, assistance and services. The supplementary budget of \$404 million, established by the High Commissioner for 2020, funded COVID-related activities. In addition, out of total \$228.6 million transfers from the operational reserve in 2020, \$155.8 million sought to strengthen UNHCR's COVID response. UNHCR also responded to new emergencies in the Sahel, continued to address protracted situations and support opportunities for durable solutions, community empowerment and self-reliance of persons of concern. Programme achievements for 2020 are reflected in the regional updates presented to the Standing Committee.

tal	463.7	-	463.7

Pillar distribution

6. The pillar distribution of the final annual budget for 2020 is shown in table II.2 below.

Table II.2

2020 final annual budget – as at 31 December 2020

In millions of US dollars

	2020 final budget		
	Requirements	Percentage over total	
Global refugee programme (Pillar 1)	7,133.8	78.1%	
Global stateless programme (Pillar 2)	78.3	0.9%	
Global reintegration projects (Pillar 3)	608.2	6.7%	
Global IDP projects (Pillar 4)	1,311.1	14.4%	
Total	9,131.3	100%	

Preliminary year-end financial analysis

7. The final budget for 2020 of \$9,131.3 million comprised programmed activities of \$8,721.4 million; an operational reserve of \$395.4 million; the "new or additional activities – mandate-related" reserve of \$2.5 million; and \$12 million for Junior Professional Officers, as shown in annex I.

8. The preliminary financial analysis for 2020 based on provisional figures and pending the financial closure of accounts is described below and summarized in table II.3.

9. The provisional funds available for the period ending 31 December 2020 stand at \$5,288.7 million. This amount comprised:

- \$410.9 million carried over from the budget year 2019;
- \$4,736.3 million in voluntary contributions recorded in 2020, plus \$92.4 million recorded in prior years for activities with implementation in 2020, minus \$106.1 million recorded in 2020 for activities with implementation in future years, as shown in annex V;
- \$40.1 million allotted to UNHCR from the United Nations regular budget;

 \$114.9 million currently estimated in other funds available and adjustments, mainly prior-year cancellations and adjustments, and miscellaneous income.

10. When compared to the \$4,826.2 million of funds available in 2019, the provisional funds available in 2020 increased by \$462.5 million, or 9.6 per cent.

11. Comparing the total funds available of \$5,288.7 million for 2020 with the total assessed needs of \$9,131.3 million for the same year, the funding gap amounted to \$3,842.7 million, or 42 per cent of the total requirements.

12. Pending the closure of 2020 accounts, provisional expenditure amounts to \$4,833.7 million, \$418.4 million or 9.4 per cent more than the \$4,415.3 million 2019 expenditure and a record high for UNHCR.

13. The carry-over into 2021 is projected to be \$454.9 million, which includes funds earmarked for specific operations.

Projected carry-over	$(\mathbf{C}) = (\mathbf{A}) - (\mathbf{B})$	454.9

III. Overview of 2021

Total requirements

14. The original annual budget for 2021 approved by the Executive Committee at its seventieth plenary session in October 2019, was \$ 8,615.8 million.⁴ At its seventy-first session in October 2020, the Executive Committee approved the revised annual budget for 2021 at the same amount of 8,615.8 million.⁵

Supplementary Budgets

15. The High Commissioner has established two supplementary budgets for 2021 amounting to \$536.4 million: \$454.8 million to support needs related to the exceptional socioeconomic and protection impacts of COVID-19 and critical health, WASH and shelter needs that could not be mainstreamed into the 2021 Global Appeal; and \$81.6 million for the Ethiopia emergency situation. This brings the total current budget for 2021 to \$9,152.3 as of January 2021. A breakdown of 2021 supplementary budgets by situation, region and pillar is shown in annex IV(b).

^{4.} See A/AC.96/1191

^{5.} See A/AC.96/1202

Pillar distribution

16. The pillar distribution of the current annual budgets for 2021 incorporating internal transfers and adjustments made by the High Commissioner in accordance with financial rule 7.4, is outlined in table III.I below. Further details are provided in annex VIII.

Table III.1

2021 current budgets by pillar - as at 31 January 2021

In millions of United States dollars

	2021 budg	et
	Requirements	Percentage over total
Global refugee programme (Pillar 1)	6,994.9	76.4%
Global stateless programme (Pillar 2)	82.6	0.9%
Global reintegration projects (Pillar 3)	641.8	7.0%
Global IDP projects (Pillar 4)	1,433.0	15.7%
Fotal	9,152.3	100%

17. Donor response at the Ad hoc Committee of the General Assembly for the Announcement of Voluntary Contributions to the High Commissioner's Programme (Pledging Conference), held in December 2020, confirmed a sustained commitment to supporting the vital programmes of UNHCR. Initial pledges for 2021 reached \$933.1 million. Although this amount does not fully cover the assessed needs, it enables UNHCR to plan and continue operations that provide life-saving assistance and protection without interruption. Donors are encouraged to continue to respond generously to the High Commissioner's appeal for resources to meet the requirements for 2021, including through unearmarked funds.

Notes

The data are generally provided by governments, based on their own definitions and methods of data collection.

- 1. Country or territory of asylum or residence.
- 2. Refugees include individuals recognized under the 1951 Convention relating to the Status of Refugees, its 1967 Protocol, the 1969 Organization of African Unity (OAU) Convention Governing the Specific Aspects of Refugee Problems in Africa, the refugee definition contained in the 1984 Cartagena Declaration on Refugees as incorporated into national laws, those recognized in accordance with the UNHCR Statute, individuals granted complementary forms of protection, and those enjoying temporary protection. In the absence of Government figures, UNHCR has estimated the refugee population in many industrialized countries based on 10 years of individual asylum-seeker recognition.
- 3. This category is descriptive in nature and includes groups of people who are outside their country or territory of origin and who face protection risks similar to those of refugees, but for whom refugee status has, for practical or other reasons, not been ascertained.
- 4. Asylum-seekers (with pending cases) are individuals who have sought international protection and whose claims for refugee status have not yet been determined. Those covered in this table refer to claimants whose individual applications were pending as of June 2020, irrespective of when those claims may have been lodged.
- 5. Refugees who have returned to their place of origin during 2020. Source: country of origin and asylum.
- 6. IDPs are persons or groups of persons who have been forced or obliged to flee or to leave their homes or places of habitual residence, in particular as a result of, or in order to avoid the effects of armed conflict, situations of generalized violence, violations of human rights or natural or human-made disasters, and who have not crossed an internationally recognized State border. For the purposes of UNHCR's statistics, this population includes only conflict-generated IDPs to whom the Office extends protection and/or assistance.
- 7. IDPs of concern to UNHCR who have returned to their place of origin during 2020.
- 8. Refers to persons who are not considered as nationals by any State under the operation of its law. This category refers to persons who fall under the agency's statelessness mandate because they are stateless according to this international definition, but data from some countries may also include persons with undetermined nationality. The figure reported includes stateless persons who are also refugees or asylum-seekers from Myanmar, IDPs in Myanmar, or others of concern to UNHCR. UNHCR's statistical reporting generally follows a methodology that reports on one legal status for each person of concern only. However, due to the extraordinary size of the displaced stateless population from Myanmar, UNHCR considers it important to reflect the dual status that this population group possesses. Additional stateless refugees, asylum seekers, and IDPs will be reported on as UNHCR continues to review and improve its reporting on stateless persons with a dual status.
- 9. Refers to individuals who do not necessarily fall directly into any of these groups above but to whom UNHCR has extended its protection and/or assistance services, based on humanitarian or other special grounds.
- 10. Venezuelans displaced abroad refers to persons of Venezuelan origin who are likely to be in need of international protection under the criteria contained in the Cartagena Declaration, but who have not applied for asylum in the country in which they are present. Regardless of status, Venezuelans displaced abroad require protection against forced returns, and access to basic services. UNHCR and the International Organization

- for Migration work together with this population by leading the Regional Inter-Agency Coordination Platform, which is aimed at strengthening the protection dimensions and consistent responses across the region in line with human rights standards.
- 11. The statelessness figure refers to a census from 2011 and has been adjusted to reflect the number of persons with undetermined nationality who had their nationality confirmed in 2011-mid-2020.
- 12. According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps. Statistical data relating to refugees are entirely for humanitarian purposes. The total number of persons in need of humanitarian assistance services is estimated to be far higher than this figure.
- 13. The methodology for estimating the number of refugees in Australia is under review and subject to adjustment in future reports. The asylum-seeker figure is based on the number of applications lodged for protection visas.
- 14. The figure reported includes 860,356 stateless persons of Rohingya ethnicity who are also counted as refugees from Myanmar, mainly from Rakhine State. UNHCR's statistical reporting generally follows a methodology that reports only one legal status for each person of concern. However, due to the size of the stateless Rohingya population displaced from Myanmar, UNHCR considers it important to reflect the dual status of this population group as both displaced and stateless. This approach has been used for Bangladesh since 2017.
- 15. The 303,100 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.
- 16. With regard to the statelessness figures, in 2020, Colombia granted nationality by birth to 7,700 children with undetermined nationality born in Colombia to Venezuelan parents displaced abroad. As these children were both identified as persons with undetermined nationality in 2020, there was no impact on the figures reported.
- 17. The new statelessness figure is based on a 2019 mapping study jointly conducted by the Government and UNHCR.
- 18. UNHCR is currently working with the authorities and other actors to determine the size of the population that found an effective nationality solution under Law 169-14. Since the adoption of Law 169-14 in May 2014, important steps have been taken by the Dominican Republic to confirm Dominican nationality through the validation of birth certificates of individuals born in the country to two migrant parents before 2007. According to information shared by the Dominican delegation during the 2019 High-Level Segment on Statelessness, approximately 48 per cent of the total Group A population of 61,049 persons had been authorized by the National Electoral Board (JCE) to request their nationality documentation. Additionally, as of December 2019, over 1,700 Group B persons (900 of which were children) had submitted applications for naturalization to the Ministry of Interior and of the Police (MIP). However, no naturalization decisions concerning this population had been issued by June 2020.
- 19. Almost all people recorded as being stateless have permanent residence and enjoy more rights than foreseen in the 1954 Convention relating to the Status of Stateless Persons.
- 20. The total statelessness figure reported relates to 17,716 stateless persons of Rohingya ethnicity who are also counted as refugees or asylum-seekers from Myanmar, mainly from Rakhine State. UNHCR's statistical reporting generally follows a methodology that reports only one legal status for each person of concern. However, due to the size of the stateless Rohingya population displaced from Myanmar, UNHCR considers it important to reflect the dual status of this population group as both displaced and stateless. This approach is being used for India for the first time in 2019.
- 21. The total statelessness figure reported relates to 544 stateless persons of Rohingya ethnicity who are also counted as refugees or asylum-seekers from Myanmar, mainly from Rakhine State. UNHCR's statistical reporting generally follows a methodology that reports only one legal status for each person of concern. However, due to the size of the stateless Rohingya population displaced from Myanmar, UNHCR considers it important to reflect the dual status of this population group as both displaced and stateless. This approach is being used for Indonesia for the first time in 2019. There are also indications that a potentially sizable population of non-displaced stateless persons exists for whom no data is available.
- 22. Pending a more accurate study into statelessness in Iraq, the figure is an estimate based on various sources.
- 23. Figures are UNHCR estimates.
- 24. The refugee population in Jordan includes 34,225 Iraqis registered with UNHCR. The Government of Jordan estimated the number of Iraqis at 400,000 individuals at the end of March 2015. This includes refugees and other categories of Iraqis.
- 25. With respect to persons under UNHCR's statelessness mandate, this figure includes persons of concern covered by two separate Latvian laws. 169 persons fall under the Republic of Latvia's Law on Stateless Persons of 17 February 2004. 216,682 of the persons fall under Latvia's 25 April 1995 Law on the Status of those Former USSR Citizens who are not Citizens of Latvia or Any Other State ("Non-citizens"). In the specific context of Latvia, the "Non-citizens" enjoy the right to reside in Latvia ex lege and a set of rights and obligations generally beyond the rights prescribed by the 1954 Convention relating to the Status of Stateless Persons, including protection from removal, and as such the "Non-citizens" may currently be considered persons to whom the Convention does not apply in accordance with Article 1.2(ii).
- 26. The total stateless population in Malaysia includes 9,040 non-displaced stateless persons who may be entitled to Malaysian nationality under the law. This number of non-displaced stateless persons is based on a registration and community legal assistance programme undertaken in West Malaysia by a local NGO with technical support from UNHCR, and, among those registered, 930 persons acquired Malaysian nationality in 2019. The total statelessness figure reported also includes 101,326 stateless persons of Rohingya ethnicity who are also counted as refugees or asylum-seekers from Myanmar, mainly from Rakhine State. UNHCR's statistical reporting generally follows a methodology that reports only one legal status for each person of concern. However, due to the size of the stateless Rohingya population displaced from Myanmar, UNHCR considers it important to reflect the dual status of this population group as both displaced and stateless. This approach is being used for Malaysia for the first time in 2019.
- 27. The estimated figure of persons of concern under the statelessness mandate relates to stateless persons of Rohingya ethnicity in Rakhine State and also includes stateless IDPs in Myanmar. The number of persons of undetermined nationality residing in other states or regions in Myanmar is not currently available. The number of stateless persons remaining in Rakhine State following violence in 2016 and 2017 and large scale

 $\underline{\mathbf{\omega}}$

departures to Bangladesh is based on detailed estimates for each village tract made by UNHCR, other UN agencies and NGOs in early 2018, which concluded that between 532,000 to 600,000 Rohingya remained in Rakhine State (including an estimated 140,886 of those Rohingya who have been internally displaced). For the purposes of this report, the higher range of this estimate has been used.

- 28. The reported number under the statelessness column refers to stateless Rohingya refugees from Myanmar. Separately, various studies estimate that a significant number of individuals originally from Nepal lack citizenship certificates. While these individuals originally from Nepal are not all necessarily stateless, UNHCR has been working closely with the Government of Nepal and partners to address this situation.
- 29. The total statelessness figure reported relates to 47 stateless persons of Rohingya ethnicity who are also counted as refugees or asylum-seekers from Myanmar, mainly from Rakhine State. UNHCR's statistical reporting generally follows a methodology that reports only one legal status for each person of concern. However, due to the size of the stateless Rohingya population displaced from Myanmar, UNHCR considers it important to reflect the dual status of this population group as both displaced and stateless. This approach is being used for Pakistan for the first time in 2020.
- 30. The updated figure is based on improved information concerning persons of Indonesian descent who have acquired nationality.
- 31. UNHCR is verifying the number of stateless persons with the Government of Saudi Arabia.
- 32. All data refer to end-2019.
- 33. The total statelessness figure reported relates to 35 stateless persons of Rohingya ethnicity who are also counted as refugees or asylum-seekers from Myanmar, mainly from Rakhine State. UNHCR's statistical reporting generally follows a methodology that reports only one legal status for each person of concern. However, due to the size of the stateless Rohingya population displaced from Myanmar, UNHCR considers it important to reflect the dual status of this population group as both displaced and stateless. This approach is being used for Sri Lanka for the first time in 2020.
- 34. According to some reports many stateless persons have been naturalized since 2011, but no official figures are yet confirmed.
- 35. The total statelessness figure includes 474,996 stateless persons reported by the Royal Thai Government and registered with the national civil registration system as of June 2020. This figure includes 108 stateless persons of Rohingya ethnicity from Myanmar who are also counted as others of concern to UNHCR. UNHCR's statistical reporting generally follows a methodology that reports only one status for each person of concern. However, due to the size of the stateless Rohingya population displaced from Myanmar, UNHCR considers it important to reflect the dual status of this population group as others of concern to UNHCR and stateless. This approach is being used for Thailand for the first time in 2019.
- 36. Refugee figure is a Government estimate.
- 37. In the absence of official data, the figure reported refers to stateless persons and persons with undetermined nationality identified by UNHCR partner organizations in Turkmenistan. The decrease in the reporting figure is due to naturalization in Turkmenistan and confirmation of nationality by a third country.
- 38. The IDP figure has been aligned to the inter-agency methodology as defined in the 2020 Humanitarian Needs Overview. Figure of others of concern relates to persons who have specific protection needs and live in non-government-controlled areas or within 20km of the contact line in government-controlled areas.
- 39. The 2020 mid-year statelessness figure refers to stateless persons with permanent residence in Uzbekistan, obtained by deducting the number of naturalizations in the first half of 2020 from the total number of stateless persons reported by the Government of Uzbekistan to UNHCR as of end-2019. Information on other categories of statelessness is unavailable.
- 40. A study is being pursued to provide a revised estimate of the statelessness figure.

Annex X

Draft decision on budgets and funding for 2020 and 2021

The Standing Committee,

Recalling the Executive Committee's decisions, at its seventieth and seventy-first sessions on administrative, financial and programme matters (A/AC.96/1198, para. 13 and A/AC.96/1209, para. 12), as well as its discussions under the programme budgets and funding item at the seventy-ninth meeting of the Standing Committee in September 2020,

Reaffirming the importance of responsibility-sharing in solidarity with countries hosting refugees,

Recalls that the Executive Committee, at its seventieth session, approved original programmes and budgets for regional programmes, global programmes and headquarters under UNHCR's 2020-2021 biennial programme budget, amounting to \$8,667.7 million and \$8,615.8 million for 2020 and 2021, respectively,

Recalls that the Executive Committee, at its seventy-first session, approved revised programmes and budgets for regional programmes, global programmes and headquarters under UNHCR's 2020-2021 biennial programme budget (revised), amounting to \$9,131.3 million and \$8,615.8 million for 2020 and 2021 respectively,

Notes that the final 2020 supplementary budgets amounted to \$463.7 million for programmes benefiting UNHCR's global refugee programme, and projects for internally displaced persons,

Takes note of the increase in UNHCR's annual budget for 2020 to a final total of \$9,131.3 million, representing the sum of the original budget of \$8,667.7 million and the final supplementary budgets of \$463.7 million,

Takes note of the increase in UNHCR's annual budget for 2021 to a current total of \$9,152.3 million as at 31 January 2021, representing the sum of the revised budget of \$8,615.8 million and the supplementary budgets of \$536.4 million,

Recognizes that emergencies and unforeseen activities unfolding in 2021 may result in the need for additional or expanded supplementary budgets and that additional resources, over and above those for existing budgets, would be needed to meet such needs, and

Urges member States to continue to respond generously, in the spirit of solidarity and in a timely manner, to the High Commissioner's appeal for resources to meet in full the annual budget for 2021.
