

Global Refugee Forum Pledge Stock-taking

Overview with the **Age, Gender, Diversity Lens**

This preliminary Age, Gender and Diversity (AGD) analysis was conducted based on information available from the GRF Pledges Database, such as the pledge submission details and implementation updates received until the end of 2020. Each pledge has been analyzed by the relevant key words found in the pledge details.

The analysis intends to draw the pledging entities' attention to AGD related issues and to raise awareness on the importance of AGD-inclusiveness of pledges. The analysis will be regularly updated. **Pledging entities are therefore kindly encouraged to share more AGD related information when submitting their implementations updates in 2021.**
