Key Priorities

- **Protection:** UNHCR strives to minimize protection risks faced by refugees, by supporting timely and person-centred access to protection, psychosocial support and other forms of assistance and information.
- **Community-based protection:** UNHCR and partners focus on responding to protection and inclusion challenges by providing social counselling, integration support, and organizing community-building events for refugees.
- **Asylum procedures:** Access to asylum remains a challenge in Hungary. UNHCR and partner organization Hungarian Helsinki Committee provide legal assistance for asylum-seekers and monitor the asylum procedure.
- **Advocacy:** UNHCR advocates for coherent refugee protection legislation, best interest procedures, and providing capacity-building to relevant institutions.
- **PSEA and GBV risk mitigation:** SEA and GBV risk mitigation continues to be mainstreamed across interventions including information and awareness-raising activities and training/capacity-building.
