Notes

The data are generally provided by Governments, based on their own definitions and methods of data collection.

A dash (-) indicates that the value is zero, not available or not applicable.

¹ Country or territory of asylum or residence. In the absence of Government estimates, UNHCR has estimated the refugee population in most industrialized countries, based on recent refugee arrivals and recognition of asylum-seekers. For Canada, USA, Australia and New Zealand, estimates are based on arrivals/recognition during the past five years, whereas for most European countries a 10-year period has been applied. These periods reflect the different naturalization rates for refugees in these regions.

² Persons recognized as refugees under the 1951 UN Convention/1967 Protocol, the 1969 OAU Convention, in accordance with the UNHCR Statute, persons granted a humanitarian status and those granted temporary protection.

³ Persons whose application for asylum or refugee status is pending at any stage in the procedure or who are otherwise registered as asylum-seekers. If the number of cases pending is not available, the total number of applications submitted during the year is reflected in italics.

⁴ Refugees who have returned to their place of origin during the year. Source: Country of origin and asylum.

⁵ Persons who are displaced within their country and to whom UNHCR extends protection and/or assistance, generally pursuant to a special request by a competent organ of the United Nations.

⁶ IDPs of concern to UNHCR who have returned to their place of origin during the year.

⁷ Persons of concern to UNHCR not included in the previous columns, including forced migrants (Russian Federation), stateless persons (Belarus, Kuwait, FYR Macedonia, Kazakhstan), local residents-at-risk (Kosovo, Serbia and Montenegro), Sahrawis (Mauretania), Afghan asylum-seekers (Russian Federation, UNHCR est.), etc. See Table 12 for further details.

* According to the Government, the number of Afghans in the Islamic Rep. of Iran is estimated to be some 2.0 million persons.

** According to the Government, the number of Afghans in Pakistan is estimated to be some 1.8 million persons.

Source: UNHCR/Governments. Compiled by: UNHCR, Population Data Unit/PGDS.

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 2. Refugee population and major changes by country of asylum, 2002

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Government. Compiled by: UNHCR, Population Data Unit/PGDS, Geneva.

In the absence of reliable Government figures, UNHCR has estimated the refugee population based on refugee arrivals and asylum-seeker recognition over the past 10 years for the following countries:

Austria, Denmark, Finland, Iceland, Ireland, Italy, Netherlands, Norway, Portugal, Spain and UK and over the past 5 years for the following countries: Australia, Canada, New Zealand and USA. The number of years taken into account broadly reflects the different naturalization rates in these countries.

¹ Voluntary repatriation departures as reported by the asylum country. For returnee arrivals as reported by the country of origin, see sheet 'T..'. For UNHCR's best estimate taking both sources into account see sheet 'T..'.
The refugee populations in the Islamic Rep. of Iran and Pakistan have been estimated by UNHCR. According to official Government estimates, the number of Afghans in the Islamic Rep. of Iran is estimated to be some 2.0 million persons, whereas the number of Afghans in Pakistan is estimated to be some 1.8 million persons at the end of 2002.

The columns Other increases and Other decreases include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths.

The columns Other increases and Other decreases include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths.

The columns Other increases and Other decreases include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths.

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 2. Refugee population and major changes by country of asylum, 2002

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Government. Compiled by: UNHCR, Population Data Unit/PGDS, Geneva.

In the absence of reliable Government figures, UNHCR has estimated the refugee population based on refugee arrivals and asylum-seeker recognition over the past 10 years for the following countries:

Austria, Denmark, Finland, Iceland, Ireland, Italy, Netherlands, Norway, Portugal, Spain and UK and over the past 5 years for the following countries: Australia, Canada, New Zealand and USA. The number of years taken into account broadly reflects the different naturalization rates in these countries.

¹ Voluntary repatriation departures as reported by the asylum country. For returnee arrivals as reported by the country of origin, see sheet 'T..'. For UNHCR's best estimate taking both sources into account see sheet 'T..'.
The refugee populations in the Islamic Rep. of Iran and Pakistan have been estimated by UNHCR. According to official Government estimates, the number of Afghans in the Islamic Rep. of Iran is estimated to be some 2.0 million persons, whereas the number of Afghans in Pakistan is estimated to be some 1.8 million persons at the end of 2002.

The columns Other increases and Other decreases include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths.

In the absence of reliable Government figures, UNHCR has estimated the refugee population based on refugee arrivals and asylum-seeker recognition over the past 10 years for the following countries:

Austria, Denmark, Finland, Iceland, Ireland, Italy, Netherlands, Norway, Portugal, Spain and UK and over the past 5 years for the following countries: Australia, Canada, New Zealand and USA. The number of years taken into account broadly reflects the different naturalization rates in these countries.

¹ Voluntary repatriation departures as reported by the asylum country. For returnee arrivals as reported by the country of origin, see sheet 'T..'. For UNHCR's best estimate taking both sources into account see sheet 'T..'.
The refugee populations in the Islamic Rep. of Iran and Pakistan have been estimated by UNHCR. According to official Government estimates, the number of Afghans in the Islamic Rep. of Iran is estimated to be some 2.0 million persons, whereas the number of Afghans in Pakistan is estimated to be some 1.8 million persons at the end of 2002.

The columns Other increases and Other decreases include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths.

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 3. Refugee population and major changes by country of asylum and origin, 2002

Total population by country of asylum and origin 1,000 or more at end-year. Sort order by origin. Figures between 1 and 9 have been indicated with an asterisk.

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Government. Compiled by: UNHCR, Population Data Unit/PGDS, Geneva.

In the absence of reliable Government figures, UNHCR has estimated the refugee population based on refugee arrivals and asylum-seeker recognition over the past 10 years for the following countries:

Austria, Denmark, Finland, Germany, Iceland, Ireland, Italy, Netherlands, Norway, Portugal, Spain and UK and over the past 5 years for the following countries: Australia, Canada, New Zealand and USA. The number of years taken into account broadly reflects the different naturalization rates in these countries.

¹ Voluntary repatriation departures as reported by the asylum country. For returnee arrivals as reported by the country of origin, see sheet 'T..'. For UNHCR's best estimate taking both sources into account see sheet 'T..'.
The refugee populations in the Islamic Rep. of Iran and Pakistan have been estimated by UNHCR. According to official Government estimates, the number of Afghans in the Islamic Rep. of Iran is estimated to be some 2.0 million persons, whereas the number of Afghans in Pakistan is estimated to be some 1.8 million persons at the end of 2002.

The columns Other increases and Other decreases include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths.

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 3. Refugee population and major changes by country of asylum and origin, 2002

Total population by country of asylum and origin 1,000 or more at end-year. Sort order by origin. Figures between 1 and 9 have been indicated with an asterisk.

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Government. Compiled by: UNHCR, Population Data Unit/PGDS, Geneva.

In the absence of reliable Government figures, UNHCR has estimated the refugee population based on refugee arrivals and asylum-seeker recognition over the past 10 years for the following countries:

Austria, Denmark, Finland, Germany, Iceland, Ireland, Italy, Netherlands, Norway, Portugal, Spain and UK and over the past 5 years for the following countries: Australia, Canada, New Zealand and USA. The number of years taken into account broadly reflects the different naturalization rates in these countries.

¹ Voluntary repatriation departures as reported by the asylum country. For returnee arrivals as reported by the country of origin, see sheet 'T..'. For UNHCR's best estimate taking both sources into account see sheet 'T..'.
The refugee populations in the Islamic Rep. of Iran and Pakistan have been estimated by UNHCR. According to official Government estimates, the number of Afghans in the Islamic Rep. of Iran is estimated to be some 2.0 million persons, whereas the number of Afghans in Pakistan is estimated to be some 1.8 million persons at the end of 2002.

The columns Other increases and Other decreases include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths.

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 3. Refugee population and major changes by country of asylum and origin, 2002

Total population by country of asylum and origin 1,000 or more at end-year. Sort order by origin. Figures between 1 and 9 have been indicated with an asterisk.

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Government. Compiled by: UNHCR, Population Data Unit/PGDS, Geneva.

In the absence of reliable Government figures, UNHCR has estimated the refugee population based on refugee arrivals and asylum-seeker recognition over the past 10 years for the following countries:

Austria, Denmark, Finland, Germany, Iceland, Ireland, Italy, Netherlands, Norway, Portugal, Spain and UK and over the past 5 years for the following countries: Australia, Canada, New Zealand and USA. The number of years taken into account broadly reflects the different naturalization rates in these countries.

¹ Voluntary repatriation departures as reported by the asylum country. For returnee arrivals as reported by the country of origin, see sheet 'T..'. For UNHCR's best estimate taking both sources into account see sheet 'T..'.
The refugee populations in the Islamic Rep. of Iran and Pakistan have been estimated by UNHCR. 2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 4. Refugee population and major changes by origin, 2002

Total population by origin 250 or more at end-year. Ordered by total population size end-year.

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Government. Compiled by: UNHCR, Population Data Unit/PGDS, Geneva.

In the absence of reliable Government figures, UNHCR has estimated the refugee population based on refugee arrivals and asylum-seeker recognition over the past 10 years for the following countries:

Austria, Denmark, Finland, Iceland, Ireland, Italy, Netherlands, Norway, Portugal, Spain and UK and over the past 5 years for the following countries: Australia, Canada, New Zealand and USA. The number of years taken into account broadly reflects the different naturalization rates in these countries.

¹ Voluntary repatriation departures as reported by the asylum country. For returnee arrivals as reported by the country of origin, see sheet 'T..'. For UNHCR's best estimate taking both sources into account see sheet 'T..'.
The refugee populations in the Islamic Rep. of Iran and Pakistan have been estimated by UNHCR. According to official Government estimates, the number of Afghans in the Islamic Rep. of Iran is estimated to be some 2.0 million persons, whereas the number of Afghans in Pakistan is estimated to be some 1.8 million persons at the end of 2002.

The columns Other increases and Other decreases include population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths.

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 5. Asylum applications and refugee status determination by country of asylum, 2002

In countries with different levels in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up.

For data by level in the procedure (first instance, appeal, etc.), see sheet 'T8'. Statistics on admissibility which are not part of the asylum procedure are not included.

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available.

Source: UNHCR/Governments. Compiled by: UNHCR, Population Data Unit, PGDS.

* Protection indicators (calculated by UNHCR):

Refugee recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 5. Asylum applications and refugee status determination by country of asylum, 2002															
<i>In countries with different levels in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up.</i>															
<i>For data by level in the procedure (first instance, appeal, etc.), see sheet 'T8'. Statistics on admissibility which are not part of the asylum procedure are not included.</i>															
Notes:															
All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available.															
Source: UNHCR/Governments. Compiled by: UNHCR, Population Data Unit, PGDS.															
* Protection indicators (calculated by UNHCR):															
Refugee recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.															
Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.															
Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.															
Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 6. Asylum applications and refugee status determination by country of asylum and level of procedure, 2002

Statistics on admissibility procedures which are not part of the asylum procedure are not included.

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Governments. Compiled by: UNHCR Geneva.

* Protection indicators (calculated by UNHCR):

Refugee recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

* Type: G=Government; U=UNHCR; V=Government and UNHCR/unknown.

** Level: NA=New Applications; FI=First instance decisions; AR=Administrative Review decisions; RA=Repeat/reopened applications; IN= US Immigration and Naturalization Service;

EO=US Executive Office of Immigration Review; JR= Including Judicial Review. CA= Cantonal regulations; AA=Admissibility Appeal; AF=Admissibility first instance;

SA=Substantive Appeal; SF=Substantive first instance;

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 7. Asylum applications and refugee status determination by country of asylum and origin, 2002

Statistics on admissibility procedures which are not part of the asylum procedure are not included.

No. of applications by country of asylum and origin 100 or more. Ordered by origin. Figures between 1 and 4 have been indicated with an asterisk (*).

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Governments. Compiled by: UNHCR Geneva.

Protection indicators (calculated by UNHCR):

Refugee recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

* Type: G=Government; U=UNHCR; V=Government and UNHCR/unknown.

** Level: NA=New Applications; FI=First instance decisions; AR=Administrative review; RA=Repeat/reopened applications; IN= US Immigration and Naturalization Service;

EO=US Executive Office of Immigration Review; JR= Including Judicial Review. CA= Cantonal regulations; AA=Admissibility Appeal; AF=Admissibility first instance;

SA=Substantive Appeal; SF=Substantive first instance;

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 7. Asylum applications and refugee status determination by country of asylum and origin, 2002

Statistics on admissibility procedures which are not part of the asylum procedure are not included.

No. of applications by country of asylum and origin 100 or more. Ordered by origin. Figures between 1 and 4 have been indicated with an asterisk (*).

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Governments. Compiled by: UNHCR Geneva.

Protection indicators (calculated by UNHCR):

Refugee recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

* Type: G=Government; U=UNHCR; V=Government and UNHCR/unknown.

** Level: NA=New Applications; FI=First instance decisions; AR=Administrative review; RA=Repeat/reopened applications; IN= US Immigration and Naturalization Service;

EO=US Executive Office of Immigration Review; JR= Including Judicial Review. CA= Cantonal regulations; AA=Admissibility Appeal; AF=Admissibility first instance;

SA=Substantive Appeal; SF=Substantive first instance;

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 7. Asylum applications and refugee status determination by country of asylum and origin, 2002

Statistics on admissibility procedures which are not part of the asylum procedure are not included.

No. of applications by country of asylum and origin 100 or more. Ordered by origin. Figures between 1 and 4 have been indicated with an asterisk (*).

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Governments. Compiled by: UNHCR Geneva.

Protection indicators (calculated by UNHCR):

Refugee recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

* Type: G=Government; U=UNHCR; V=Government and UNHCR/unknown.

** Level: NA=New Applications; FI=First instance decisions; AR=Administrative review; RA=Repeat/reopened applications; IN= US Immigration and Naturalization Service;

EO=US Executive Office of Immigration Review; JR= Including Judicial Review. CA= Cantonal regulations; AA=Admissibility Appeal; AF=Admissibility first instance;

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 7. Asylum applications and refugee status determination by country of asylum and origin, 2002

Statistics on admissibility procedures which are not part of the asylum procedure are not included.

No. of applications by country of asylum and origin 100 or more. Ordered by origin. Figures between 1 and 4 have been indicated with an asterisk (*).

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Governments. Compiled by: UNHCR Geneva.

Protection indicators (calculated by UNHCR):

Refugee recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

* Type: G=Government; U=UNHCR; V=Government and UNHCR/unknown.

** Level: NA=New Applications; FI=First instance decisions; AR=Administrative review; RA=Repeat/reopened applications; IN= US Immigration and Naturalization Service;

EO=US Executive Office of Immigration Review; JR= Including Judicial Review. CA= Cantonal regulations; AA=Admissibility Appeal; AF=Admissibility first instance;

SA=Substantive Appeal; SF=Substantive first instance;

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 7. Asylum applications and refugee status determination by country of asylum and origin, 2002

Statistics on admissibility procedures which are not part of the asylum procedure are not included.

No. of applications by country of asylum and origin 100 or more. Ordered by origin. Figures between 1 and 4 have been indicated with an asterisk (*).

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Governments. Compiled by: UNHCR Geneva.

Protection indicators (calculated by UNHCR):

Refugee recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

* Type: G=Government; U=UNHCR; V=Government and UNHCR/unknown.

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 7. Asylum applications and refugee status determination by country of asylum and origin, 2002

Statistics on admissibility procedures which are not part of the asylum procedure are not included.

No. of applications by country of asylum and origin 100 or more. Ordered by origin. Figures between 1 and 4 have been indicated with an asterisk (*).

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Governments. Compiled by: UNHCR Geneva.

Protection indicators (calculated by UNHCR):

Refugee recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

* Type: G=Government; U=UNHCR; V=Government and UNHCR/unknown.

** Level: NA=New Applications; FI=First instance decisions; AR=Administrative review; RA=Repeat/reopened applications; IN= US Immigration and Naturalization Service;

EO=US Executive Office of Immigration Review; JR= Including Judicial Review. CA= Cantonal regulations; AA=Admissibility Appeal; AF=Admissibility first instance;

SA=Substantive Appeal; SF=Substantive first instance;

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 7. Asylum applications and refugee status determination by country of asylum and origin, 2002

Statistics on admissibility procedures which are not part of the asylum procedure are not included.

No. of applications by country of asylum and origin 100 or more. Ordered by origin. Figures between 1 and 4 have been indicated with an asterisk (*).

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Governments. Compiled by: UNHCR Geneva.

Protection indicators (calculated by UNHCR):

Refugee recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

* Type: G=Government; U=UNHCR; V=Government and UNHCR/unknown.

** Level: NA=New Applications; FI=First instance decisions; AR=Administrative review; RA=Repeat/reopened applications; IN= US Immigration and Naturalization Service;

EO=US Executive Office of Immigration Review; JR= Including Judicial Review. CA= Cantonal regulations; AA=Admissibility Appeal; AF=Admissibility first instance;

SA=Substantive Appeal; SF=Substantive first instance;

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 7. Asylum applications and refugee status determination by country of asylum and origin, 2002

Statistics on admissibility procedures which are not part of the asylum procedure are not included.

No. of applications by country of asylum and origin 100 or more. Ordered by origin. Figures between 1 and 4 have been indicated with an asterisk (*).

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Governments. Compiled by: UNHCR Geneva.

Protection indicators (calculated by UNHCR):

Refugee recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

* Type: G=Government; U=UNHCR; V=Government and UNHCR/unknown.

** Level: NA=New Applications; FI=First instance decisions; AR=Administrative review; RA=Repeat/reopened applications; IN= US Immigration and Naturalization Service;

EO=US Executive Office of Immigration Review; JR= Including Judicial Review. CA= Cantonal regulations; AA=Admissibility Appeal; AF=Admissibility first instance;

SA=Substantive Appeal; SF=Substantive first instance;

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 7. Asylum applications and refugee status determination by country of asylum and origin, 2002

Statistics on admissibility procedures which are not part of the asylum procedure are not included.

No. of applications by country of asylum and origin 100 or more. Ordered by origin. Figures between 1 and 4 have been indicated with an asterisk (*).

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available. Source: UNHCR/Governments. Compiled by: UNHCR Geneva.

Protection indicators (calculated by UNHCR):

Refugee recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

* Type: G=Government; U=UNHCR; V=Government and UNHCR/unknown.

** Level: NA=New Applications; FI=First instance decisions; AR=Administrative review; RA=Repeat/reopened applications; IN= US Immigration and Naturalization Service;

EO=US Executive Office of Immigration Review; JR= Including Judicial Review. CA= Cantonal regulations; AA=Admissibility Appeal; AF=Admissibility first instance;

SA=Substantive Appeal; SF=Substantive first instance;

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 8. Asylum applications and refugee status determination by origin, 2002

This table combines first instance and appeal-review procedures. Statistics on admissibility which are not part of the asylum procedure are not included.

Figures between 1 and 9 have been indicated with an asterisk.

Notes:

All figures are provisional and subject to change. A dash ("-") indicates that the value is zero or not available.

Source: UNHCR/Governments. Compiled by: UNHCR, Population Data Unit, PGDS.

* Protection indicators (calculated by UNHCR):

Refugee recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 13. Demographic composition of the population of concern to UNHCR by country of asylum, end-2002

Countries with no demographic breakdown available are not included.

* Indicates the proportion of the population of concern for which the demographic characteristics are available. In a few cases, the population for which the demographic characteristics are available includes persons which are not of concern to UNHCR (e.g. rejected asylum-seekers) resulting in a percentage exceeding 100%.

Data are provisional, subject to change.

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 13. Demographic composition of the population of concern to UNHCR by country of asylum, end-2002

Countries with no demographic breakdown available are not included.

* Indicates the proportion of the population of concern for which the demographic characteristics are available. In a few cases, the population for which the demographic characteristics are available includes persons which are not of concern to UNHCR (e.g. rejected asylum-seekers) resulting in a percentage exceeding 100%.

Data are provisional, subject to change.

2002 UNHCR POPULATION STATISTICS (PROVISIONAL)

Table 14. Population of concern to UNHCR by country of asylum and location, end-2002

The population by location may not necessarily add up to the total population of concern in the country.

Name of location as provided by the UNHCR country office. Data are provisional, subject to change.

Countries for which no location breakdown is available are not included.

Country of asylum/ residence	Name of location	Camps/ centers	Urban areas	Rural/ dispersed/ other/various	Total	Percentage in camps/ centers	Percentage in urban areas
