Reason for HIAS referral: <i>Please write a few sentences summarizing why this case is being referred.</i>					
1. Refugee Claim					
<i>Draft a few short paragraphs explaining the refugee's persecution in CoO as it relates to the Convention.</i>					
2. Resettlement Need					
<i>Select the appropriate resettlement category(s), delete the others, and briefly describe the refugee's circumstance that meet this criteria.</i>					
<u>Legal and/or Physical Protection Needs</u>					
<u>Woman and Girls at Risk</u>					
<u>Survivor of Violence and/or Torture</u>					
<u>Children and Adolescents at Risk</u>					
<u>Family Reunification</u>					
<u>Medical Needs</u>					
<u>Lack of Foreseeable Alternative Durable Solutions</u>					

3. Local Integration Prospects

The host country does not have a law or policies in place to facilitate local integration; this durable solution is therefore not a viable option at present.

4. Voluntary Repatriation Prospects

The client would be at risk of persecution if [she/he] were to return to [her/his] country of origin. [She/he] is unable and to avail [herself/himself] of the protection of [her/his] country of origin. This takes away the most important tenet of voluntary repatriation as envisaged in the UNHCR Voluntary Repatriation Handbook. In the premises it is not a viable option at present.
