This bibliography does not pretend to be exhaustive. It tries to identify some major publications and recent literature relating to:

- UNHCR's mandate and activities;
- Refugee protection and durable solutions;
- Refugee situations and forced displacement.

It also provides a list of core UNHCR guidelines and manuals relating to the protection and assistance of refugees as well as titles of academic journals and a series on refugee issues.

References were selected from the Refugee Literature (REFLIT) database developed by the UNHCR Library and were compiled by Geneviève Bador, Senior Documentation Officer. Publications are available for consultation at the Library in Geneva: **e-mail:** [library@unhcr.org](mailto:library@unhcr.org)
