

Global Report 2014

UNHCR's Global Report 2014 provides information for governments, private donors, partners and other readers interested in the organization's activities and achievements in 2014. Information is now presented in two ways: through the print publication and on the Global Focus website.

The *Global Report 2014* print publication presents a thematic overview of the work carried out by UNHCR in 2014 to protect and improve the lives of tens of millions of forcibly displaced people: refugees, internally displaced people, returnees, stateless people and others of concern. It highlights the year's achievements, as well as challenges faced by the organization and its partners in attempting to respond to multiple life-threatening crises and ever-growing humanitarian needs.

The new *Global Focus* website (<http://reporting.unhcr.org>) was launched in early 2015 as the organization's main operational reporting platform for donors. The website now offers regularly updated information about programmes, operations, financial requirements, funding levels and donor contributions. All governmental donors who have contributed USD 150,000 or more, and all private-sector donors who have contributed USD 100,000 or more, are profiled on the website. ■
