

High Level Dialogue on Protection Capacity

I feel so honoured to attend this forum of dialogue on protection.

Chair, there are needs to protect refugees against forced relocation from the existing camp to the new space. In Kenya, The non Somali refugees from Dadaab camps are being coerced to move to Kakuma camps against their will. There is no alarm raised on the coexistence between the non Somali refugees and the Somalis within the Dadaab locality. As a result, non Somali refugees are feeling insecure as moving to Kakuma mediates thier exposure. I appeal to the UNHCR Headquarters to intervene and take positive action that can restore the non Somali refugees.
